

Medieval Peasant Diary 2 9/26

Life of a Peasant in Medieval Europe During the time of Medieval Europe, a group, called the peasants, lived together under the ruling of a lord. Peasants got little respect but were expected to work long and hard hours just to provide for their families. There was little time for anything besides working. The peasant's in Medieval Europe had an extremely hard and harsh lifestyle . When children were born to peasants, it was almost guaranteed that that child would remain a peasant for his or hers entire life . Most peasants worked for lords in fields as farmers. During the farming year, there were also many different jobs besides planting and harvesting that had to be done on time and only during a certain time to make sure the harvest would be plentiful and beneficial for the lords . Other jobs included tradesman, tavern owners, and millers, but most became farmers . They lived harsh lives but few rebelled due to the strong law and order system .

At the bottom of the Feudal system were the peasants. Each peasant took an oath swearing on the Bible their obedience to their lords . According to Jean Froissart (1395), "It is the custom in England, as with other countries, for the nobility to have great power over the common people, who are serfs. This means that they are bound by law and custom to plough the field of their masters, harvest the corn, gather it into barns, and thresh and winnow the grain; they must also mow and carry home the hay, cut and collect wood, and perform all manner of tasks of this kind." Religion was taken very seriously by the peasants. The church was considered a part of the king's rulings. The church also had strict rules each member must follow.

Tear Off the Masks! Sheila Fitzpatrick, 2005-07-05 When revolutions happen they change the rules of everyday life both the codified rules concerning the social and legal classifications of citizens and the unwritten rules about how individuals present themselves to others This occurred in Russia after the Bolshevik Revolution of 1917 which laid the foundations of the Soviet state and again in 1991 when that state collapsed Tear Off the Masks is about the remaking of identities in these times of upheaval Sheila Fitzpatrick here brings together in a single volume years of distinguished work on how individuals literally constructed their autobiographies defended them under challenge attempted to edit the file selves created by bureaucratic identity documentation and denounced others for masking their true social identities Marxist class identity labels worker peasant intelligentsia bourgeois were of crucial importance to the Soviet state in the 1920s and 1930s but it turned out that the determination of a person's class was much more complicated than anyone expected This in turn left considerable scope for individual creativity and manipulation Outright imposters both criminal and political also make their appearance in this book The final chapter describes how after decades of struggle to construct good Soviet socialist personae Russians had to

struggle to make themselves fit for the new post Soviet world in the 1990s by de Sovietizing themselves Engaging in style and replete with colorful detail and characters drawn from a wealth of sources *Tear Off the Masks* offers unique insight into the elusive forms of self presentation masking and unmasking that made up Soviet citizenship and continue to resonate in the post Soviet world
