grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation

Digital Content Marketing in the Global Environment. Evaluation of Global Companies in the Chemical Industry Matthias Hebben,2021-04-27 Master s Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 2.0 University of Applied Sciences Northwestern Switzerland language English abstract This Master thesis explores the phenomenon of Digital Content Marketing DCM by evaluating if content marketing and its tools have a positive impact on global companies in the chemical industry Rapid globalization and the development of new markets at an increasingly global scale have made DCM more important However global companies are facing new challenges like new technological developments and trends and a changing consumer landscape that requires new marketing approaches Strategies are required to overcome these challenges adopt DCM techniques and use current techniques to gain competitive advantages However there are still companies that have not included digital content in their marketing strategy Others have difficulties making their marketing content unique and powerful The main issue is often measuring the effectiveness of one s digital content to determine whether DCM has a positive impact
