Deadly Lessons:

The Crisis of School Violence Marianna King,2020-12-01 The Crisis of School Violence is the only interdisciplinary book about school violence It presents a broad and in depth approach to the key questions about why bullying continues at an unprecedentedly high rate and why rampage school shootings continue to shock the nation Based on extensive research The Crisis of School Violence investigates human nature and its relation to aggressive behavior with a special focus on the culture of violence that predicates school violence including rampage shootings and perpetuates industries that profit from violence Marianna King presents the considerable psychological and neuroscientific research that investigates the effects of violent entertainment media on the brain and subsequently on behavior which clearly reveals a causal connection between exposure to violent electronic entertainment media especially violent video games and increased aggressive and violent behavior The book also reveals a more specific connection between exposure to violent video games and rampage school shootings Ultimately this volume is a call to action that includes recommendations for parents teachers decision makers and citizens alike

Are You In The House Alone? Amanda Reyes,2017-04-05 Beginning in the 1960s through its heyday in the 1970s and beyond the telefilm remains an important cultural artefact masquerading as disposable entertainment Made specifically for the small screen within the tight constraints of broadcasting standards what these humble movies lacked in budget and star appeal they made up for in other ways Often they served as an introduction to genre films particularly horror mirroring their theatrical counterparts with a focus on sinister cults women in prison haunted houses and even animals in revolt They were also a place to address serious contemporary issues drugs prostitution sexual violence and justice albeit in a cosy domestic environment Production of telefilms continues to this day but their significance within the history of mass media remains under discussed Are You in the House Alone seeks to address this imbalance in a series of reviews and essays by fans and critics alike It looks at many of the films the networks and names behind them and also specific genres everything from Stephen King adaptations to superheroes to true life dramas So kickback and crack open the TV guide once more for the event that is the Movie of the Week
