Portugal in June 2010 Today computer science is an integral part of even strictly historical investigations such as those
concerning the construction of vaults where the computer is used to survey the existing building analyse the data and draw

informática Pierre Pellegrino,Daniel Coray,1999 Este libro aborda las relaciones existentes entre arquitectura e informatica

Se pretende ofrecer una reflexión sobre esta problemática de actualidad y desgranar algunas ideas acerca del conocimiento y el saber en la arquitectura. Este texto muestra cómo es posible concebir un programa como se opera con traducciones diversas entre lenguajes distintos desde el proyecto arquitectónico hasta una expresión informática pasando por una codificación matemática basada en estructuras de grafos. La concepción de un programa de diseño asistido por ordenador se inscribe así en el propio proceso del saber arquitectónico. Pierre Pellegrino es arquitecto y profesor de universidad.

Se ha intentado estudiar la evolución de la situación de las mujeres en los tres sectores de la comunidad universitaria: profesorado, alumnado y personal de administración y servicios. Por un lado se han elaborado los datos estadísticos generados por la propia universidad y se han procesado interrelacionando variables dentro del marco de la estadística descriptiva. Por otro se han realizado algunas historias de vida a diferentes mujeres de la comunidad universitaria pertenecientes a los sectores del profesorado y el PAS.
