Arrow Talk:

Ku Waru Francesca Merlan, Alan Rumsey, 1991-03-29 The highlanders of New Guinea are renowned for their elaborate systems of ceremonial exchange. Although much has been written about them, previous accounts have concentrated far less on the conduct of exchange events than on the structure of exchange systems. This 1991 book deals centrally with the conduct of particular exchange events and shows through examination of them how larger social structures are reproduced and transformed. As part of the emphasis on exchange as social action, the book closely examines the oratory that plays a crucial part in the events. Basing their study on original fieldwork carried out in the Nebilyer Valley, Francesca Merlan and Alan Rumsey focus on an inter-related set of large-scale compensation payments which arose out of an episode of warfare. This book furthers our understanding of the interaction between social structures and historical events and particularly of the crucial role of talk. It will be of special interest to anthropologists and linguists.

A Grammar of Kwaza Hein van der Voort, 2008-08-22 This work contains a comprehensive description of Kwaza, which is an endangered and unclassified indigenous language of Southern Rondônia, Brazil. The Kwaza language, also known in the literature as Koai, is spoken by around 25 people today. Until recently, our knowledge of Kwaza was based on only three short word lists from 1938, 1943, and 1984. Like the language, the culture and the history of its speakers are undocumented. The Kwaza people, as an ethnic group, have been decimated by increasing ecological, physical, social, and cultural pressure from Western civilisation since contact in the past century. This is the situation for many indigenous peoples of Rondônia and of the Amazon region in general. Linguists expect that the majority of these peoples will cease to exist as distinct language communities during the coming decades. The present work is intended as a contribution to the documentation and preservation of the languages of the Amazon basin. In this respect, Kwaza represents an especially urgent case in view of its undetermined classification, the lack of documentation, and its endangered status. This work is based on the author's personal fieldwork conducted between 1995 and 2002 and it consists of three parts. Part I contains a thorough description of the phonology and morphosyntax of the language and a concise overview of its social, cultural, and historical context. Part II contains a diverse selection of transcribed and translated texts with interlinear morphological analyses. Part III is a dictionary of Kwaza, including many examples and an English Kwaza register. This complete description is of interest to linguists in general, scholars of South American languages in particular, and anthropologists and historians interested in the Guaporé region.

Expressive Genres and Historical Change Andrew Strathern, 2017-07-05 This collection of essays, edited by leading scholars in the field, focuses on how expressive genres such as music, dance, and poetry are of enduring significance to social organization. Research from New Guinea, Indonesia, and Taiwan is used to assess how historical changes modify these forms of expression to adjust to the social and political needs of the moment. The volume is unique in exploring the significance of expressive genres for the social processes of coping with and adjusting to change, either from outside forces or from internal ones. The contributions detail
