The Victorian Christian Socialists Edward R. Norman,2002-10-03 Victorian Christian Socialism began as a protest against industrial evils by a group of Anglicans in 1848 the year of the great Chartist demonstration In F D Maurice it had a prophet and a thinker whose ideas inspired subsequent Christians so that the ideals of the original Christian Socialists began to spread to other Churches The result was a series of critiques of the England of their day rather than a systematic movement and is best analysed as it is in this book through an examination of the leading figures who in addition to Maurice include Charles Kingsley Thomas Hughes and John Ruskin The present study is not a collection of biographical studies however but a history of Christian Socialism constructed around the most influential of its advocates They are shown to have been ethical and educational reformers rather than politicians but in their ability to stand outside the common assumptions and prejudices of their day they achieved social criticism of lasting value *British Children's Writers, 1800-1880* Meena

Essays on British reform writers during a time when Britain struggled to establish a new and stable political social and economic order Includes major writers as well as others known mainly as sociopolitical thinkers reformers and socialists as well as reform oriented critics and educators *British Industrial Narratives, 1830-1855* Mary Catherine Gallagher,1979

Victorian Fantasy Literature Karen Michalson,1990 This study examines the non literary and non aesthetic reasons underlying the bias in favour of realism in the formation of the traditional literary canon of 19th century British fiction It examines the role of the Anglican Church as well as that of nonconformist or dissenting evangelical sects in the educational institutions of the first half of the century and the function of the academic study of English literature in British imperialist
