**Theologizing Friendship** Nathan Sumner Lefler, 2014-09-15 In *Theologizing Friendship* the author aims to revitalize Jean Leclercq's defense of monastic theology while expanding and qualifying some of the central theses expounded in Leclercq's magisterial *The Love of Learning and the Desire for God* The current work contributes to a revised and updated status quaestionis concerning the theological relationship between classical monasticism and scholasticism construed in more systematic and speculative terms than those of Leclercq rendered here through the lens of friendship as a theological topos The work shares with Ivan Illich's *In the Vineyard of the Text* the conviction that the rise of the Schools Paris Oxford etc constitutes one of the greatest intellectual watersheds in the history of Western civilization where Illich's ruminations are largely philosophical and particularly epistemological the author's are theological and metaphysical In his novel proposal that within the monastic and scholastic milieux there obtain parallel threefold analogies among friendship reading and theology the author not only offers an original contribution to current scholarship but gestures towards avenues for institutional self examination much needed by the contemporary modern and postmodern Academy

**The Cambridge Translations of Medieval Philosophical Texts: Volume 2, Ethics and Political Philosophy** Arthur Stephen McGrade, John Kilcullen, Matthew Kempshall, 2001 The eagerly awaited second volume of *The Cambridge Translations of Medieval Philosophical Texts* will allow scholars and students access for the first time in English to major texts in ethics and political thought from one of the most fruitful periods of speculation and analysis in the history of western thought Beginning with Albert the Great who introduced the Latin west to the challenging moral philosophy and natural science of Aristotle and concluding with the first substantial presentation in English of the revolutionary ideas on property and political power of John Wyclif the seventeen texts in this anthology offer late medieval treatments of fundamental issues in human conduct that are both conceptually subtle and of direct practical import Special features of this volume include copious editorial introductions an analytical index and suggestions for further reading This is an important resource for scholars and students of medieval philosophy history political science theology and literature

**The Charity Organization Review**, 1918 **The Charity Organisation Review**, 1918 **Alphatopbetics: Volume One:: Ideas We Live with and Live by Every Day of Our Life**

Jerry Dampier, 2017-04-17 *Alphabetics Ideas We Live With and Live by Every Day of Our Life* is a book inspired by the study of psychology, theology, history, science, and especially philosophy. Influenced by the Greek philosophers Socrates, Plato, and Aristotle, Jerry Dampier has combined life experience and informal discussions to arrive at the basis of Alphabetics. The ideas written about in this book are not just research-based, although I have done extensive research over four or five years; the ideas I have written about are ideas in which I have had many conversations. The discussions or conversations were held with family and relatives, friends and acquaintances, academicians or college professors and classmates. They, along with the research I have put into this book, have helped me to write it. *William James, Moral Philosophy, and the Ethical Life*

Jacob L. Goodson, 2017-12-20 Virtue theory, natural law, deontology, utilitarianism, existentialism: these are the basic moral theories taught in Ethics, History of Philosophy, and Introduction to Philosophy courses throughout the United States. When the American philosopher William James (1842-1910) finds his way into these conversations, there is uncertainty about where his thinking fits. While utilitarianism has become the default position for teaching James's pragmatism and radical empiricism, this default position fails to address and explain James's multiple criticisms of John Stuart Mill's formulaic approach to questions concerning the moral life. Through close readings of James's writings, the chapters in *William James Moral Philosophy and the Ethical Life* catalogue the ways in which James wants to avoid the following: a) the hierarchies of Christian natural law theory; b) the moral calculus of Mill's utilitarianism; c) the absolutism and principle-ism of Immanuel Kant's deontology; and d) the staticity of the virtues found in Aristotle's moral theory. Elaborating upon and clarifying James's differences from these dominant moral theories is a crucial feature of this collection. This collection is not, however, intended to be wholly negative; that is, only describing to readers what James's moral theory is not. It seeks to articulate the positive features of James's ethics and moral reasoning: what does it mean to an ethical life, and how should we theorize about morality. **The Divine Secret of Nothing**

Vincent Morales, 2010 A man shares his synthesis of ancient and quasi-empirical thinking that helped him to become more open to receive the grace that he needed to conquer the passions of the flesh, to return to God, what belongs to Him. The man utilizes scriptural verses, the wisdom of saints and philosophers, and insightful illustrations to empower and encourage the reader in the good fight to conquer the passions of self for the reward that God gives to a person for conquering the passions and returning what belongs to Him: is nothing less than, as St. Teresa of Avila said, the reward of Himself. This book might be difficult for some people to read due to its controversial content. Nevertheless, it is an illuminating and thought-provoking read for people who want to know God as Complete Goodness, as well as the man's revelatory thoughts on the Bible, the devil, the fallen angels, creation, and the afterlife. *The Works of William Shakespeare*

William Shakespeare, 1892 **The Library of Oratory** Chauncey Mitchell Depew, Nathan Haskell Dole, Caroline Ticknor, Thomas Charles Quinn, 1902 **Justice Among Nations** Thomas L. Pangle, Peter J. Ahrens Dorf, 1999 This text provides an introduction to conceptions of international justice spanning 2500 years of intellectual history from Thucydides

and Plato to Morgenthau and Waltz It shows how older traditions of political philosophy remain relevant to contemporary debates in international relations

*The Idea of Love* Robert G. Hazo, 1967 Focuses primarily on those works of classical and modern philosophy psychology and theology that have dealt with man with human love Exploring the writing of authors as diverse as Aristotle Dante Sigmund Freud Descartes and David Hume the author attempts in each case to isolate the basic notion or notions that are common to all the forms of interpersonal love the elements he implies must be present in love and those he suggests may in addition be present to distinguish one type of love from another
