## **Chart Rectification:**

**The Complete Book of Chart Rectification** Carol A. Tebbs,2008 Knowing the exact time of birth is crucial for an accurate horoscope An incorrect birth time can result in the wrong Ascendant Mid heaven and more The Complete Book of Chart Rectification may be the first book ever to offer modern astrological methods for rectifying questionable or unknown birth times Once regarded as rocket science for astrologers chart rectification is still considered advanced in our technology age But this groundbreaking book makes the process easy Learn how to find a consistent pattern where astrological indicators correspond with life events These techniques will help you link dramatic life events with aspect hooks to narrow birth time parameters Tebbs easy to follow rectification methods are highlighted by case studies featuring biographies and chart analyses of Elizabeth Taylor Johnny Cash and Jimmy Swaggart

**Horoscope Construction and Organisation , Astrology and Meditation** Greg Bogart,2000-09-10 The author explores the idea that the most powerful astrological technique is a quiet meditative mind The book presents astrology as a form of active meditation where we contemplate whatever is arising with expectancy receptivity and conscious use of will to shape what unfolds The author presents meditations on the spiritual lessons of the planets and zodiacal signs and with the plentiful use of case histories describes the technique of symbol amplification which enables us to unfold the deepest meanings of chart symbols The book ends with a discussion of astrology as a spiritual practice

**Nadi Astrology and Other Prediction Techniques** Dr. Pemmaraju V R Rayudu,2022-08-15 This book is a compilation of 25 research articles written by the author and published in various magazines in India and abroad covering prediction techniques from Nadi Astrology and other systems including Gochara Stellar Effects Interpretation of Varga charts Nadi chart Birth time rectification Navamsha lords Benefic Malefic planets and Gems etc

**The New Complete Book of Chart Rectification** Carol Tebbs,2025-09-15 Knowing the exact birth time is foundational for the astrologer to delineate the natal chart and or give an overview of the coming year The problem is that even in the 21st century many countries around the world do not record birth time and family members often provide a generic time such as morning afternoon evening or night Each of the generic times span 6 hours so three rising signs are possible in each and the Moon or other planets may change signs and rulers Birth time must be more specific and that is where rectification comes to the rescue for the trained astrologer to derive the correct birth time that fits the client s biography and major life events In this unparalleled book esteemed astrologer Carol Tebbs makes the rectification process clear and easy to follow from short time ranges to the challenging 24 hour search Even experienced astrologers need a helping client who provides a solid biography and a list of major life events with dates and a rating of each event for its importance Before starting the rectification process to find the Angles set the chart at the midpoint of the time range to find any planets in a close 1 to 2 degree Ptolemaic aspect Aspect Hooks are a handy tool to align with Event Hooks to derive information that fits the biography There are many ways to make the rectification process easier by using solid astrological

judgment to narrow the time range before testing events to align with appropriate astrological descriptors Amazingly the Moon starts the easy train of narrowing time if it straddles two signs The biography should make that choice clear For instance a Scorpio Moon is very different than a Sagittarius Moon Once one sign is chosen several hours can be deleted from the search Throughout this New rectification book there are many helpful steps to building an accurate rectified birth time that fits the person Carol claims that a good rectified birth time brings a client for life Now that astrologers have clients around the world through Zoom there is greater demand for accurate birth time The NEW Complete Book of Chart Rectification has dozens of examples and techniques from building a case theory to a final rectified birth time so accurate chart delineation can proceed
