

DNA

DNA, oh DNA,
the code of life,
oh so fine it's in each cell,
it's hard to miss it's what makes us who we are,
with a simple twist.

It's made of nucleotides,
a chain so long & double helix,
a beautiful song genes and traits,
it holds them all it's the blueprint of us, standing tall

It's in our blood, it's in our hair
it's in our eyes, it tells us where we came from,
it's our history it's who we are, it's our mystery

So let's respect it, let's understand DNA,
it's the master plan
of life on earth, it's worth exploring DNA,
it's worth adoring

Humans are composed by DNA and through chemical action it maintains and renews us daily This poetry book explores the many facets of our existence through the lens of our own DNA Most of us know who our fathers are but it s not that difficult to find someone who discovered in adulthood the uncomfortable truth through DNA analysis DNA determines our personal identity not counting the effects of environment The topic of DNA covers race medicine sexual attraction procreation family gender vaccines crime eye and hair and skin color COVID longevity national identity mutation relationships with parents and children beauty and ugliness and height to name a few For example the miracle of birth is accompanied by a rush of hormones ensuring the bond between mother and infant Some medical researchers are recording the DNA of large human populations which will lead to broad advances in diagnosis and treatment Some nations are recording the DNA of many or all of their citizens which will lead to privacy invasion and police suppression As with computers such research is a double edged sword This book engages these subjects and more surrounding the central force of DNA *The thousand best poems in the world, selected and arranged by E.W. Conscience DNA Hymn does not hesitate this debut collection is the hard swallowed keystone in a larger history that is as deeply painful as it is stunning as much archive as it is mythology as entrenched in epigenetics as it is in etymology Each poem insists on our attention on our surrender we would be fools to turn away from such generosity Few poets can play with language so deftly still make us feel the weight of life or death in each word Let this book saw you open keep you from inheriting your own hurt Meg Day Last Psalm at Sea Level
