## **Dog Help Us:**

**100 Simple Secrets Why Dogs Make Us Happy** David Niven, PhD, 2009-03-17 Why do people who have dogs live happier longer and more fulfilling lives Sociologists and veterinarians have spent years investigating the positive effects that dogs have on people s health and happiness yet their findings are inaccessible to ordinary people hidden in obscure journals to be shared with other experts Now the international bestselling author of the 100 Simple Secrets series has collected the most current and significant data from more than a thousand of the best scientific studies on the profound relationship between humans and our canine companions These findings have been boiled down to the one hundred essential ways dogs positively impact our lives Each fact is accompanied by a inspiring true story If you love your dog and science tells us that you do this book will inspire and entertain

**Communicate Better** It sounds odd to say a creature that communicates with barking and body language can have such a profound effect on human communication But by providing a common point of reference and concern dogs help us to feel a connection to other humans That connection makes us feel more comfortable communicating with each other When meeting a new person the presence of a dog reduces the time before people feel comfortable while talking with each other by 45 percent

**Live Longer** There is perhaps no better gift that dogs offer us humans than this simple fact People who care for a dog live longer healthier lives than those who do not On average people who cared for dogs during their lives lived 3 years longer than people who never had a dog

**No Monkey Business** Primates are genetically more similar to humans than any other creature But try to tell a chimpanzee something and you will be hard pressed to get your message across Dogs are uniquely attuned to the messages we send Dogs study humans and have evolved to build social skills that help them to function around us Dogs are 52 percent more likely to follow human cues such as pointing toward a source of food than are primates

**Around the Block** Good habits are often misunderstood as difficult or unpleasant chores But there is tremendous value in the simple act of taking a walk Walking not only burns calories it also decreases stress Having a dog means regularly talking walks it s something you do for your dog but in truth your dog is doing for you Dog owners walk 79 percent farther in an average week than non dog owners

**Letting in the Dog** Patricia Blocker, Patricia Blocker, 2019 Deals with the fascinating subject of reading canine body language and more finding the intersection between academic and spiritual the juncture between hearts and minds The book explores the intuitive and intellectual sides of communicating with canines in which space we build trust and better relationships

**Be Your Dog's Best Friend** Katya Lidsky, 2025-08-15 Bonding with a dog is good for the animal and good for us Along the way to achieving the behaviors we desire from a dog we change our behaviors too taking us right to the intersection between dog guardianship and personal growth This how to bond book set against the backdrop of a true love story explores what happens when we prioritize the relationship with our canines over the results we get from them With a woven narrative that features various foster dogs as well as exercises to practice with your own dog it positions dog adoption as both a selfish and a selfless

act Every dog has the capacity to help us be the best version of ourselves day after day and in bonding to improve the relationship with our pet we end up strengthening the relationship we really want the one with ourselves

**In Dogs We Trust** Jacob F. Rivers III, Jeffrey Makala, 2019-05-17 A grand anthology that celebrates the many sterling virtues of the canine species Dogs have lived with humans for thousands of years as working partners By the nineteenth century their role expanded to companions American dog literature reflects this gradual but dramatic shift that continues even today Our household dogs are quite literally closer than ever to us sleeping in our beds getting dressed in Halloween costumes and serving as emotional support companions In Dogs We Trust is the first comprehensive anthology of American dog literature It features stories anecdotes and poetry that celebrate the many sterling virtues of the canine species By mining the vast American literary archive of nineteenth and early twentieth century periodicals Jacob F Rivers III and Jeffrey Makala reveal the mystique and magic of the human canine relationship and what they believe is one of the best connections humans have to the mysteries of the natural world This grand anthology features a rich harvest of fiction and nonfiction in which the canine heroes and heroines think and act in ways that illuminate their unquestioning loyalty and devotion By taking dog literature seriously Rivers and Makala believe we can learn more about our animal companions ourselves and our national literature For them dog literature is American literature it helps us explore and explain who we are and who we wish to be
