**The Moral Rights of Animals** Mylan Engel Jr., Gary Lynn Comstock, 2016-03-16 Edited by Mylan Engel Jr and Gary Lynn Comstock this book employs different ethical lenses including classical deontology libertarianism commonsense morality virtue ethics utilitarianism and the capabilities approach to explore the philosophical basis for the strong animal rights view which holds that animals have moral rights equal in

strength to the rights of humans while also addressing what are undoubtedly the most serious challenges to the strong animal rights stance including the challenges posed by rights nihilism the kind argument against animal rights the problem of predation and the comparative value of lives In addition contributors explore the practical import of animal rights both from a social policy standpoint and from the standpoint of personal ethical decisions concerning what to eat and whether to hunt animals Unlike other volumes on animal rights which focus primarily on the legal rights of animals and unlike other anthologies on animal ethics which tend to cover a wide variety of topics but only devote a few articles to each topic this volume focuses exclusively on the question of whether animals have moral rights and the practical import of such rights The Moral Rights of Animals will be an indispensable resource for scholars teachers and students in the fields of animal ethics applied ethics ethical theory and human animal studies as well as animal rights advocates and policy makers interested in improving the treatment of animals

**The Cosmopolitan**, 1900 *Animal Suffering, Human Rights, and the Virtue of Justice* Per Bauhn, 2023-03-29 In this book Per Bauhn does three things First he outlines some aspects of contemporary philosophical views on animals and morality including the criticism of speciesism and the animal rights argument Second he criticizes these views arguing that we cannot escape a speciesist perspective on morality and that there are no good reasons why we should believe that non human animals have moral rights Third he argues that cruelty against non human animals is morally wrong but not because animal rights are being violated but because human agents who inflict cruelty on non human animals are failing their duty to develop in themselves the virtue of justice This latter argument is reminiscent of Immanuel Kant's idea that we have only indirect duties towards animals but unlike that idea Bauhn's argument does not depend on any causal hypothesis that humans who are cruel to animals are likely to be cruel also to their fellow humans Instead Bauhn's argument relies on the fact that being cruel to non human animals and other innocent beings is conceptually and logically inconsistent with the virtue of justice a virtue which agents are rationally required to develop in themselves
