A Dictionary of American Proverbs Wolfgang Mieder,1992 Americans have a gift for coining proverbs A picture is worth a thousand words was not as you might imagine the product of ancient Chinese wisdom it was actually minted by advertising executive Fred Barnard in a 1921 advertisement for Printer s Ink magazine After all Americans are first and foremost a practical people and proverbs can be loosely defined as pithy statements that are generally accepted as true and useful The next logical step would be to gather all of this wisdom together for a truly American celebration of shrewd advice A Dictionary of American Proverbs is the first major collection of proverbs in the English language based on oral sources rather than written ones Listed alphabetically according to their most significant key word it features over 15 000 entries including uniquely American proverbs that have never before been recorded as well as thousands of traditional proverbs that have found their way into American speech from classical biblical British continental European and American literature Based on the fieldwork conducted over thirty years by the American Dialect Society this volume is complete with historical references to the earliest written sources and supplies variants and recorded geographical distribution after each proverb Many surprised await the reader in this vast treasure trove of wit and wisdom Collected here are nuggets of popular wisdom on all aspects of American life weather agriculture travel money business food neighbors friends manners government politics law health education religion music song and dance And to further enhance browsing pleasure the editors have provided a detailed guide to the use of the work While it s true that many of our best known proverbs have been supplied by the ever present Anonymous many more can be attributed to some very famous Americans like Ernest Hemingway Abraham Lincoln Benjamin Franklin Mark Twain J Pierpont Morgan Thomas Alva Edison Abigail Adams and Ralph Waldo Emerson to name but a few offered in this fascinating collection Who wouldn t want to know the origin of the opera ain t over till the fat lady sings This uniquely American proverb and many more are gathered together in A Dictionary of American Proverbs A great resource for students and scholars of literature psychology folklore linguistics anthropology and cultural history this endlessly intriguing volume is also a delightful companion for anyone with an interest in American culture

Encounters with the Posthuman and the Environment Inci Bilgin Tekin,Zeynep Talay Turner,2024-10-29 This volume is located at a crossover between posthumanism and environmental humanities

Corpus Approaches to Discourse in Forensic and Legal Contexts David Wright,2025-02-20 This book is the first of its kind to bridge the gap between corpus linguistics and forensic linguistics illustrating the value of applying corpus linguistic data tools and methods in the analysis of language in the law evidence crime and justice The volume begins by taking stock of the use of corpus linguistics in the field of forensic and legal

linguistics over its roughly thirty year history as a foundation for critically reflecting on the current state of play within the discipline Wright uses this discussion as a jumping off point from which to demonstrate the opportunities and challenges of using corpora and corpus methods to analyse language in legal and forensic contexts and offers possible solutions to collecting and analysing types of data that are typically not in the public domain The five analysis chapters that follow apply corpus method to both established and emerging areas of forensic and legal linguistics summarized in a concluding chapter which also looks ahead to future directions for the interface of the two fields This book will be key reading for graduate students and researchers in forensic linguistics and corpus linguistics methods as well as scholars working across disciplines interested in the intersection between language and the law

Rationality in Social Interactions Guido Olschewski,2009 The analysis of human decision making in social sciences is often based on a conception of rationality This dissertation contains three microeconomic models which directly build on the rationality assumption in economic theory We model agents endowed with rational preferences and analyze how such preferences translate into decisions in a given social interaction In particular we present three different models 1 Arrowian social choice theory with delegation as a feasible policy alternative 2 Game theory and the existence of mental equilibrium in 2x2 games 3 Information economics and its application to analyzing stakeholder participation in electronic health record networks
