Culture of Terror Eugene E. Narrett, 2009-05 In Culture of Terror Eugene Narrett accomplishes a remarkable task defining and identifying the roots of postmodernism in the scientific utopianism of the Enlightenment Dr Narrett explains and traces the increasing totalitarian core of this drive to control and perfect human beings to the media distraction machine Using core texts from political philosophy and literature he follows the Romantic revolution in values and scientific utopianism through Modernism and its suicidal relativistic power mad postscript postmodernism Using a broad palette of great writings from many disciplines he traces America s regression to nihilistic paganism directed by an oligarchy and a new hi tech feudalism that impoverishes and de humanizes In America the flower of the West the contradictions and self negation in this process are most pronounced and grotesque as shown by popular culture which he examines extensively Culture of Terror is a unique tale of imperial identity theft playing out its logic in confessions of regret expressive instrospection psychology and the exhibitionism of media spectacles that absorb and program everything in the disintegrating language of its its distraction machine
