Animals And People Sharing The World:

Animals and People Sharing the World Andrew N. Rowan, 1988 Timely essays by Harriet Ritvo James Serpell Elizabeth Lawrence Stephen Kellert others on the range of interactions of humans animals the environment **Thinking with Animals** Lorraine Daston, Gregg Mitman, 2005 From Victorian vivisectionists to elephant conservation from ancient Indian mythology to pet ownership in the contemporary United States our understanding of both animals and what it means to be human has been shaped by anthropomorphic thinking The contributors to Thinking with Animals explore the how and why of anthropomorphism drawing attention to its rich and varied uses Prominent scholars in the fields of anthropology ethology history and philosophy as well as filmmakers and photographers take a closer look at how deeply and broadly ways of imagining animals have transformed humans and animals alike **Australian People and Animals in Today's Dreamtime** International Society for Comparative Psychology, 1991-08-30 Papers presented at a conference held in Sydney Australia in August 1988 Emotions of Animals and Humans Shigeru Watanabe, Stan Kuczaj, 2012-08-31 This book takes a multidisciplinary approach to emotion with contributions from biologists psychologists neuroscientists robot engineers and artists A wide range of emotional phenomena is discussed including the notion that humans sophisticated sensibility as evidenced by our aesthetic appreciation of the arts is based at least in part on a basic emotional sensibility that is found in young children and perhaps even some non human animal species As a result this book comprises a unique comparative perspective on the study of emotion A number of chapters consider emotions in a variety of animal groups including fish birds and mammals Other chapters expand the scope of the book to humans and robots Specific topics covered in these chapters run the gamut from lower level emotional activity such as emotional expression to higher level emotional activity such as altruism love and aesthetics Taken as a whole the book presents manifold perspectives on emotion and provides a solid foundation for future multidisciplinary research on the nature of emotions **Shared Lives of Humans and Animals** Tuomas Räsänen, Taina Syrjämaa, 2017-04-21 The book focuses on animal agency and interactions between humans and animals It explores the reciprocity of human animal relations and the capacity of animals to act and shape human societies The chapters draw on examples from the Global North to explore questions of how industrialization urbanization and human life in modernity have been a Encyclopedia of the Arctic Mark Nuttall, 2005-09-23 With detailed essays on the Arctic s environment wildlife climate history exploration resources economics politics indigenous cultures and languages conservation initiatives and more this Encyclopedia is the only major work and comprehensive reference on this vast complex changing and increasingly important part of the globe Including 305 maps This Encyclopedia is not only an interdisciplinary work of reference for all those involved in teaching or researching Arctic issues but a fascinating and comprehensive resource for residents of the Arctic and all those concerned with global environmental issues sustainability science and human interactions with the environment *Recognising and Responding to Animal Emotion in a Shared World* Vicki

Hutton,2023-11-16 How is it that depending on the setting the same cat can be perceived as a homeless annoyance a potential research subject or a thinking and feeling family member The answer is bound up in our perception of non human animals capacity to experience emotions and this book draws on contemporary evidence based research observations interviews and anecdotal case scenarios to explore the growing knowledge base around animal emotion Acknowledging that animals can experience feelings directly affects the way that they are perceived and treated in many settings and the author explores the implications when humans apply or ignore this knowledge selectively between species and within species This information is presented within the unique context of a proposed hierarchy of perceived non human animals emotional abilities often based on human interpretation of the animal s emotional capacity with examples of how this manifests at an emotional spiritual and moral level Implications for specific groups living with caring for or working with non human animals are examined making the book of particular interest to those working studying or researching in the veterinary professions animal ethics law and welfare and zoology biology and animal science This book will also be fascinating reading for anyone interested in simply learning more about the animals with whom we share this planet For some readers it will validate the reciprocal emotional bond they feel for living creatures For others it will raise questions about the moral treatment of sentient non human beings breaking down the human protective barrier of cognitive dissonance and activating a cycle of change *Humans, Animals, Machines* Glen A. Mazis,2008-09-04

In the twenty first century the boundaries between both humans and machines and humans and animals are hotly contested and debated In *Humans Animals Machines* Glen A Mazis examines the increasingly blurring boundaries among the three and argues that despite their violating collisions there are ways for the three realms to work together for mutual thriving Examining Merleau Ponty Heidegger and Haraway artificial intelligence that includes MIT Embodied AI newer holistic brain research animal studies the attachment theory of psychologist Daniel Siegel literary examples aesthetic theory technology research contemporary theology physics poetry machine art Taoism and firsthand accounts of cyborg experience the book reconsiders and dares to propose a new type of ethics and ecospirituality that would do justice to the overlapping relationships among humans animals and machines
