

Animals Don't Have Rights, Humans Have Responsibility

**We should treat animals decently
not because they are like humans,
but rather because they're not.**

Animals Dont Have Rights:

Animals Don't Have Rights Jack Boulogne, *Who Says Animals Don't Have Rights?* Jean Ure, 1994 **Animal Ethics** Bob Fischer, 2021-05-05 There are many introductions to the animal ethics literature There aren't many introductions to the practice of doing animal ethics Bob Fischer's *Animal Ethics: A Contemporary Introduction* fills that gap offering an accessible model of how animal ethics can be done today The book takes up classic issues such as the ethics of eating meat and experimenting on animals but tackles them in an empirically informed and nuanced way It also covers a range of relatively neglected issues in animal ethics such as the possibility of insect sentience and the ethics of dealing with pests Finally the book doesn't assess every current practice using standard ethical theories but tries to evaluate some of them using the moral frameworks endorsed by those involved So for instance there is a chapter on the way that animal care and use committees try to justify some of the educational uses of animals and the chapter on zoos considers the way that international zoological societies justify compromising animal welfare The book wraps up with a discussion of the future of animal ethics Each chapter opens with a helpful initial overview of the chapter and ends with a list of suggested readings to help students go further on their own

Key Features Covers animal ethics from an empirically informed perspective bringing philosophy into conversation with key issues in animal science conservation biology economics ethology and legal studies among other fields Provides ample coverage of the most salient current topics including for example Debates about which animals are sentient The suffering of wild animals Research ethics The boundaries of activism Avoids suggesting that animal ethics is simply the practice of applying the right general theory to a problem instead allowing readers to first work out the specific costs and benefits of making ethical decisions Impresses upon the reader the need for her to work out for herself the best way forward with difficult ethical issues suggesting that progress can indeed be made Includes summaries and recommended readings at the end of each chapter

Our Familiars Anne Coombs, 2024-07-30 A beautiful meditation on the awe inspiring responsibility we hold with other living creatures from their containment and loss of freedom to our intense and mysteriously mutual love How do animals guard serve and care for us And how and why do we love them so much Anne Coombs spent her entire life working to understand the profound answers that come from these two deceptively simple questions Before her death in late 2021 she researched the topic extensively and reflected deeply on her own experiences with animals both domestic and in the paddocks The animals in her life were privy to her deepest and darkest emotions her despair her tears and her love In *Our Familiars* Anne calls for all animal caregivers to use our great creative imaginations to see animals as conducting lives as meaningful as our own intersecting in our intimate spaces She has left us with a beautiful meditation on the awe inspiring responsibility we take on with other living creatures from their containment and loss of freedom to our intense and mysteriously mutual love Opening with the story of Anne's childhood familiar Elsie the goat this tender book takes us on an expansive journey that is part personal memoir part insightful research and part noble call to action With her

last book Anne leaves us an invaluable gift With wit humour and insight she implores us to feel wonder as we watch how our animal companions live

Building Arguments Drew Hinderer,2005-01-28 Building Arguments offers a fresh new approach to informal logic successfully combining an accessible style with a rigorous systematic treatment of argument It integrates reasoning and writing teaching readers to argue effectively and communicate ideas in persuasive prose It combines fundamental topics of critical thinking into broader discussions of reasoning So where other books may treat fallacy identification and avoidance induction and deduction and validity and soundness as ends in themselves Building Arguments presents these topics in a practical yet philosophically sound context It includes entertaining and relevant examples and exercises drawn from sports popular advertising current events and many academic areas Building Arguments is unique in its emphasis on helping readers to develop their own persuasive arguments as well as to evaluate arguments from other sources Using a writing level and organization guided by the principles of reading development the author introduces material gradually moving from a very accessible level to a more rigorous one The result A book unique in its ability to foster philosophically based argument analysis while promoting reasoning and writing skills across the curriculum
