Animals In African Art From The Familiar To The Marvelous:

Animals in African Art Allen F. Roberts, Carol Thompson, 1995 Different sense is also attributed to a given animal symbol by the same people through the course of time There is certainly no easy explanation of why animals like snakes and penguins appear over and over again in the art of many peoples across the African continent while others like rhinos zebras and giraffes rarely if ever do

Continuum Encyclopedia of Animal Symbolism in World Art Hope B. Werness, 2006-01-01 Animals and their symbolism in diverse world cultures and different eras of human history are chronicled in this lovely volume

African Folklore Philip M. Peek, Kwesi Yankah, 2004-03-01 Written by an international team of experts this is the first work of its kind to offer comprehensive coverage of folklore throughout the African continent Over 300 entries provide in depth examinations of individual African countries ethnic groups religious practices artistic genres and numerous other concepts related to folklore Featuring original field photographs a comprehensive index and thorough cross references *African Folklore An Encyclopedia* is an indispensable resource for any library's folklore or African studies collection Also includes seven maps

African Arts, 2008

The Postcolonial Animal Evan Mwangi, 2019-09-06 Despite the central role that animals play in African writing and daily life African literature and African thinkers remain conspicuously absent from the field of animal studies *The Postcolonial Animal African Literature and Posthuman Ethics* demonstrates the importance of African writing to animal studies by analyzing how postcolonial African writing including folktales religion philosophy and anticolonial movements has been mobilized to call for humane treatment of nonhuman others Mwangi illustrates how African authors grapple with the possibility of an alternative to eating meat and how they present postcolonial animal consuming cultures as shifting toward an embrace of cultural and political practices that avoid the use of animals and minimize animal suffering *The Postcolonial Animal* analyzes texts that imagine a world where animals are not abused or used as a source of food clothing or labor and that offer instruction in how we might act responsibly and how we should relate to others both human and nonhuman in order to ensure a world free of oppression The result is an equitable world where even those who are utterly foreign to us are accorded respect and where we recognize the rights of all marginalized groups

[Animals](#) Peter Adamson, G. Fay Edwards, 2018-05-10 This volume traces the history of animals in philosophy from antiquity down to contemporary times Negative attitudes towards animals as found in Aristotle and Descartes turn out to be more nuanced than usually supposed while remarkable discussions of animal welfare appear in late antiquity India the Islamic world and Kant

African Ecomedia Cajetan Iheka, 2021-08-23 In *African Ecomedia* Cajetan Iheka examines the ecological footprint of media in Africa alongside the representation of environmental issues in visual culture Iheka shows how through visual media such as film photography and sculpture African artists deliver a unique perspective on the socioecological costs of media production from mineral and oil extraction to the politics of animal conservation Among other works he examines Pieter Hugo's photography of electronic waste recycling in Ghana and Idrissou

Mora Kpai's documentary on the deleterious consequences of uranium mining in Niger. These works highlight not only the exploitation of African workers and the vast scope of environmental degradation but also the resourcefulness and creativity of African media makers. They point to the unsustainability of current practices while acknowledging our planet's finite natural resources. In foregrounding Africa's centrality to the production and disposal of media technology, Iheka shows the important place visual media has in raising awareness of and documenting ecological disaster even as it remains complicit in it.

Speaking of Objects Constantine Petridis, 2020-11-10. A lavishly illustrated selection of highlights from the Art Institute of Chicago's extraordinary collection of the arts of Africa. Featuring a selection of more than 75 works of traditional African art in the Art Institute of Chicago's collection, this stunning volume includes objects in a wide variety of media from regions across the continent. Essays and catalogue entries by leading art historians and anthropologists attend closely to the meanings and materials of the works themselves in addition to fleshing out original contexts. These experts also underscore the ways in which provenance and collection history are important to understanding how we view such objects today. Celebrating the Art Institute's collection of traditional African art as one of the oldest and most diverse in the United States, this is a fresh and engaging look at current research into the arts of Africa as well as the potential of future scholarship.

Picasso's Collection of African & Oceanic Art Peter Stepan, 2006. Although he never set foot in Africa, Picasso had a passion for African art. Throughout the course of his life, he assembled a unique collection of statues and masks. Comprising more than 120 objects, Picasso's private collection can now be found in museums in Paris such as the Louvre, Musée Quai Branly, and the Musée Picasso, as well as in the private collections of members of Picasso's family. This beautiful book documents the entire collection and examines it as a whole. It features documentary photographs, a section of stunning colour plates, and detailed ethnographic descriptions of each piece, providing a full account of Picasso's relationship with African and Oceanic art. This important publication sheds new light on the fascination non-Western art held for one of the twentieth century's most important artists. Review an illuminating and handsome book copiously illustrated with fascinating original documents and excellent colour reproductions, a convenient and also essential reference tool for anyone interested in this important subject, an invaluable and also entertaining guide. This book not only investigates Picasso's response to tribal art with unusual thoroughness but also reopens the larger question of the artist's primitivism. *The Burlington Magazine*, June 2007.

Selected Works from the Collection of the National Museum of African Art National Museum of African Art (U.S.), 1999. The National Museum of African Art began as a private educational institution in 1964 and became part of the Smithsonian Institution in 1979. This volume includes highlights from the museum's holdings of traditional African art from throughout the continent, although the majority of works originated in sub-Saharan Africa. The 150 objects presented include sculpted masks and figures, regalia, items of personal adornment, textiles, furniture, and household objects. Each entry provides a discussion about the object's meaning and use and includes provenance and publication history. Fully illustrated in color, the handbook
