Animal Atlas DK,2021-04-27 This stunning new atlas is your first class pass on a world tour of the homes of Earth's most incredible animals. The latest exciting title in DK's popular Where on Earth series maps out the habitats of the world's mammals, fish, birds, reptiles, invertebrates, and more. Whether it's plotting the range of a lion, following the flight paths of birds, tracking great white sharks in the oceans, or exploring the migration of the monarch butterfly, you will see exactly where and how more than 100 extraordinary animal species live. What makes Where on Earth Animals unique are the maps themselves. Each one is individually commissioned in 3-D with detail to show the habitat of each animal as well as its geographic location. This reveals an astonishing amount of information about the behavior of these animals, from how seals are adapted to survive in freezing Antarctic seas to how beetles survive in the heat of the Sahara desert. There is also a focus on the conservation and protection of animals. Maps reveal the shrinking territories of some species, showing where they used to roam in the past compared to what's left of their range today. Whichever animal you're trying to track down, you're sure to find it in Where on Earth Animals. **Animal Survival** Lori Hile,2011-01-01 Learn about animals who have survived in disastrous conditions.

**Koala** Carol Inskipp,2005 Introduction to koalas and the reasons that their numbers have been declining *Myself and Other Animals* Gerald Durrell,2024-12-05 A posthumous work from the beloved conservationist and naturalist Gerald Durrell to celebrate the centenary of his birth with a new foreword by HRH Princess Anne. Gerald Durrell was magic. SIR DAVID ATTENBOROUGH A wise, genial, and world-encompassing book. SUNDAY TIMES Fills important gaps in the biographical narrative. Truly, there is magic here. GUARDIAN *Myself and Other Animals* is a new book mosaicked from unpublished autobiographies, uncollected pieces, and previously published extracts from Durrell's work and archives. The result is an extraordinary journey through Durrell's life in his own words, edited and introduced by his widow, Lee Durrell. Drawing on a memoir that Durrell started writing before he became too ill to continue it, and an unfinished book from a trip to Australia in 1969 to the Great Barrier Reef, Northern Territory, and Queensland, here is the unvarnished story of Durrell's life, from touching family tributes to golden bats and pink pigeons, moving from India to England and then to the always sun-lit Corfu, told with dry wit and insight into our fellow animals. Here is the vivid finale of one of Britain's most beloved conservationists and prose stylists. Funny and readable and hugely charming. i One of the finest and most lyrical nature writers in English. OBSERVER A moving tribute to Gerald's endeavours and achievements as a conservationist.
