### **The Undergraduate's Companion to Women Poets of the World and Their Web Sites** Katharine A.

Dean, 2004-03-30 Devoted exclusively to women poets this volume in the Undergraduate Companion Series presents students with an abundance of important resources necessary for 21st century literary research The most authoritative informative and useful Web sites and print resources have carefully been selected and compiled in a bibliographic guide to the introductory works of 221 women poets who write in English or have works available in English translation Representing more than 25 nationalities worldwide the women included in this volume have each contributed significantly to the genre of poetry For each author you will find concise lists of the best Web sites and printed sources including biographies criticisms dictionaries handbooks indexes concordances journals and bibliographies Creativity and Universality in Language Mirko

Degli Esposti, Eduardo G. Altmann, Francois Pachet, 2016-05-18 This book collects research contributions concerning quantitative approaches to characterize originality and universality in language The target audience comprises researchers and experts in the field but the book may also be beneficial for graduate students Creativity might be considered as a morphogenetic process combining universal features with originality While quantitative methods applied to text and music reveal universal features of language and music originality is a highly appreciated feature of authors composers and performers In this framework the different methods of traditional problems of authorship attribution and document classification provide important insights on how to quantify the unique features of authors composers and styles Such unique features contrast and are restricted by universal signatures such as scaling laws in word frequency distribution entropy measures long range correlations among others This interplay between innovation and universality is also an essential ingredient of methods for automatic text generation Innovation in language becomes relevant when it is imitated and spread to other speakers and musicians Modern digital databases provide new opportunities to characterize and model the creation and evolution of linguistic innovations on historical time scales a particularly important example of the more general problem of spreading of innovations in complex social systems This multidisciplinary book combines scientists from various different backgrounds interested in quantitative analysis of variations synchronic and diachronic in language and music The aim is to obtain a deeper understanding of how originality emerges can be quantified and propagates Eugenio Montale Eanna O

Ceallachain, 2017-12-02 Eugenio Montale 1896 1981 is best known for the intense lyrical vision of his first three collections of poetry written between the 1920s and early 1950s With the publication of Satura in 1971 the profile of his work changes irrevocably as a new disillusioned voice emerged commenting ironically on post war Italian society and debunking his own previous poetic myths O Ceallachain while placing this body of work firmly in its historical and ideological context explores the poetic texts in detail approaching the work from a variety of interpretative and thematic angles and constructing a comprehensive reading of Montale s later work **Transmissions of Memory** Patrizia Sambuco, 2018-03-19 Transmissions

of Memory Echoes Traumas and Nostalgia in Post World War II Italian Culture discusses cultural products films poetry fiction architectural buildings autobiographical writing and social media to individuate through them the dynamics of memory The field of analysis is Italian culture from World War II to the contemporary times and the volume has in a gendered approach one of its focuses offering an encompassing view on cultural memory and highlighting the similarities between gendered revisitation and revisitation of the past The volume is divided into three sections cultural transmissions fractured memories and nostalgia In the chapters herewith the study of memory through these forms hints at a sense of transformation and often enrichment or resilience individual or collective that values more the present and the future rather than the past
