## **Annotated Bibliography Of Southern American English:**

**Annotated Bibliography of Southern American English** James B. McMillan, Michael B. Montgomery, 2018-12-11 A collection of the total range of scholarly and popular writing on English as spoken from Maryland to Texas and from Kentucky to Florida. The only book-length bibliography on the speech of the American South, this volume focuses on the pronunciation, vocabulary, grammar, naming practices, word play, and other aspects of language that have interested researchers and writers for two centuries. Compiled here are the works of linguists, historians, anthropologists, sociologists, and educators, as well as popular commentators. With over 3,800 entries, this invaluable resource is a testament to the significance of Southern speech, long recognized as a distinguishing feature of the South and the abiding interest of Southerners in their speech as a mark of their identity. The entries encompass Southern dialects in all their distinctive varieties, from Appalachian to African American and sea islander to urbanite. **Annotated Bibliography of Southern American English** James B. McMillan, Michael Montgomery, 1989-05-30 A collection of the total range of scholarly and popular writing on English as spoken from Maryland to Texas and from Kentucky to Florida. The only book-length bibliography on the speech of the American South, this volume focuses on the pronunciation, vocabulary, grammar, naming practices, word play, and other aspects of language that have interested researchers and writers for two centuries. Compiled here are the works of linguists, historians, anthropologists, sociologists, and educators, as well as popular commentators. With over 3,800 entries, this invaluable resource is a testament to the significance of Southern speech, long recognized as a distinguishing feature of the South and the abiding interest of Southerners in their speech as a mark of their identity. The entries encompass Southern dialects in all their distinctive varieties, from Appalachian to African American and sea islander to urbanite. *The Companion to Southern Literature*

Joseph M. Flora, Lucinda Hardwick MacKethan, 2001-11-01 Selected as an Outstanding Academic Title by Choice. Selected as an Outstanding Reference Source by the Reference and User Services Association of the American Library Association. There are many anthologies of southern literature, but this is the first companion. Neither a survey of masterpieces nor a biographical sourcebook, *The Companion to Southern Literature* treats every conceivable topic found in southern writing from the pre-Columbian era to the present, referencing specific works of all periods and genres. Top scholars in their fields offer original definitions and examples of the concepts they know best, identifying the themes, burning issues, historical personalities, beloved icons, and common or uncommon stereotypes that have shaped the most significant regional literature in memory. Read the copious offerings straight through in alphabetical order: Ancestor Worship, Blue Collar Literature, Caves, or skip randomly at whim: Guilt, The Grotesque, William Jefferson Clinton. Whatever approach you take, *The Companion's* authority, scope, and variety in tone and interpretation will prove a boon and a delight. Explored here are literary embodiments of the Old South, New South, Solid South, Savage South, Lazy South, and Sahara of the Bozart. As up-to-date as

grit lit K Mart fiction and postmodernism and as old fashioned as Puritanism mules and the tall tale these five hundred entries span a reach from Lady to Lesbian Literature The volume includes an overview of every southern state s belletristic heritage while making it clear that the southern mind extends beyond geographical boundaries to form an essential component of the American psyche The South s lavishly rich literature provides the best means of understanding the region s deepest nature and The Companion to Southern Literature will be an invaluable tool for those who take on that exciting challenge Description of Contents 500 lively succinct articles on topics ranging from Abolition to Yoknapatawpha 250 contributors including scholars writers and poets 2 tables of contents alphabetical and subject and a complete index A separate bibliography for most entries *American English Dialects in Literature* Eva Mae Burkett,1978 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com)

**Language Variety in the South Revisited** Cynthia Bernstein,Thomas E. Nunnally,Robin Sabino,2014-01-22 Top linguists from diverse fields address language varieties in the South Language Variety in the South Revisited is a comprehensive collection of new research on southern United States English by foremost scholars of regional language variation Like its predecessor Language Variety in the South Perspectives in Black and White The University of Alabama Press 1986 this book includes current research into African American vernacular English but it greatly expands the scope of investigation and offers an extensive assessment of the field The volume encompasses studies of contact involving African and European languages analysis of discourse pragmatic lexical phonological and syntactic features and evaluations of methods of collecting and examining data The 38 essays not only offer a wealth of information about southern language varieties but also serve as models for regional linguistic investigation

**Linguistics** Anna L. DeMiller,2000-01-15 Thoroughly revised and updated with some 500 new entries including the addition of pertinent Internet sites this is the only bibliographic guide to information sources for linguistics Coverage spans from 1957 the publication date of Chomsky s seminal work to the present with emphasis on English language resources DeMiller s detailed citations describe and evaluate each work often offering comparisons to similar titles Its broad coverage and in depth reviews make this work essential to the research and study of general or theoretical linguistics The book is also indispensable in the related areas of anthropological linguistics applied linguistics mathematical and computation linguistics psycholinguistics semiotics and sociolinguistics which are all treated in separate chapters as well as the study of language and languages from a linguistic perspective A must for any library supporting the study of linguistics or its related fields this is a valuable reference and research tool It is *The Oral Character of Southern Literature* Clay Morton,2008 The literary distinctiveness of the American South has been an object of much scholarly discussion Although oratory and folklore are often cited as influences on the unique character of Southern literature no scholar in the field has yet explored orality as a possibly deterministic factor in the shaping of the region s literary and cultural identity This study makes use of the extensive research available on the differences between oral and literate

thought and expression in order to argue that practically every distinguishing factor of Southern literature may be traced the region's oral orientation. To this end, empirical findings on identifiable oral linguistic strategies, narrative structures, and epistemologies are fruitfully synthesized with analyses of works by Southern authors including James Weldon Johnson, Eudora Welty, William Gilmore Simms, William Faulkner, Donald Davidson, and Zora Neale Hurston. These discussions provide not only a new theory of Southern exceptionalism but also a new theoretical framework for reading Southern texts. **Literary**

**Research Guide** James L. Harner, 2008. James L. Harner's *Literary Research Guide*, which Choice calls the standard guide in the field, evaluates important reference materials in English studies. Since the publication of the first edition in 1989, tens of thousands of students and educators have used the Guide as an aid to scholarly research. In the new edition, Harner has added entries describing resources published since May 2001 and has revised nearly half the entries from the fourth edition. The fifth edition contains more than 1,000 entries which discuss an additional 1,555 books, articles, and electronic resources and cite 723 reviews. Readers of earlier editions will notice the inclusion of substantially more electronic resources, particularly reliable sites sponsored by academic institutions and learned societies, to account for the proliferation of bibliographic databases, text archives, and other online resources. This edition also features a new section on cultural studies.

**Resources in Education**, 1973. [Research in Education](#), 1973. **A Manual for Dialect Research in the Southern States**, Lee Pederson, 1974. **The New Encyclopedia of Southern Culture**, Charles Reagan Wilson, James G.
