## **Animals In American Literature:**

*Animals in American Literature* Mary Allen, 1983      *Civilized Creatures* Jennifer Mason, 2005-08-04 In *Civilized Creatures* Jennifer Mason challenges some of our most enduring ideas about how encounters with nonhuman nature shaped American literature and culture Mason argues that in the second half of the nineteenth century the most powerful influence on Americans understanding of their affinities with animals was not increasing separation from the pastoral and the wilderness instead it was the population's feelings about the ostensibly civilized animals they encountered in their daily lives Americans of diverse backgrounds Mason shows found it attractive as well as politic to imagine themselves as most closely connected to those creatures who shared humans aptitude for civilized life And to the minds of many in this period national prosperity depended less on periodic exposure to untamed wild nature than it did on the proper care and keeping of such animals within suburban and urban environments Combining literary analysis with cultural histories of equestrianism petkeeping and the animal welfare movement *Civilized Creatures* offers new readings of works by Susan Warner Nathaniel Hawthorne Harriet Beecher Stowe and Charles W Chesnut In each case Mason demonstrates that understanding contemporary relationships between humans and animals is essential for understanding the debates about gender race and cultural power enacted in these texts

**Animals in the American Classics** John Cullen Gruesser, 2022-08-24 As defined by conservation biologist Thomas Fleishner natural history is a practice of intentional focused receptivity to the more than human world one of the oldest continuous human traditions Seldom is this idea so clearly reflected as in classic works of American fiction of the nineteenth and twentieth centuries John Cullen Gruesser's edited volume *Animals in the American Classics* How Natural History Inspired Great Fiction features essays by prominent literary scholars that showcase natural history and the multifaceted role of animals in well known works of fiction from Washington Irving in the early nineteenth century to Cormac McCarthy in the late twentieth century and including short stories and novels by Edgar Allan Poe Herman Melville Mark Twain Zora Neale Hurston William Faulkner Ernest Hemingway Jack London John Steinbeck and Harper Lee As an introduction to or a new way of thinking about some of the best known and most beloved literary texts this nation has produced *Animals in the American Classics* considers fundamental questions of ethics and animal intelligence as well as similarities among racism ageism misogyny and speciesism With their awareness of Poe's more than casual knowledge of natural science Mark Twain's proto animal rights sensibilities and Hurston's training as an anthropologist the contributors show that by drawing attention to and thinking like an animal fiction tests the limits of humanity

**Animals in Young Adult Fiction** Walter Hogan, 2009-07-01 Of the many themes occurring in young adult literature one that bears more extensive exploration is the adolescent animal connection Although substantial critical commentary has addressed children's animal stories and animals in adult fiction very few studies have been devoted to adolescent animal encounters In *Animals in Young Adult Fiction* Walter Hogan examines several hundred novels and stories to explore the ways in which animals are

represented in these works In addition to providing an historical survey Hogan looks at both realistic fiction and speculative works including fantasy supernatural horror and science fiction Hogan reviews stories that feature wild animal encounters stories centered on relationships with horses dogs and other working and performing animals and those featuring relationships with pets Drawing upon established scholarship this book examines human animal relationships from multiple angles making it an invaluable resource for librarians teachers and students of children s and young adult literature

Animal Ethics and Ethical Animals Kristen Barber Gravitte,2013 *Creature Discomfort* Scott M. DeVries,2016-05-02 In *Creature Discomfort* Fauna criticism Ethics and the Representation of Animals in Spanish American Fiction and Poetry Scott M DeVries uncovers a tradition in Spanish American literature where animal ethical representations anticipate many of the most pressing concerns from present debates in animal studies The author documents moments from the corpus that articulate long standing positions such as a defense of animal rights or advocacy for liberationism that engage in literary philosophical meditations concerning mind theory and animal sentience and that anticipate current ideas from Critical Animal Studies including the rejection of hierarchical differentiations between the categories human and nonhuman *Creature Discomfort* innovates the notion of fauna criticism as a new literary approach within animal studies this kind of analysis emphasizes the reframing of literary history to expound animal ethical positions from literary texts both those that have been considered canonical as well as those that have long been neglected In this study DeVries employs fauna criticism to examine nonhuman sentience animal interiority and other ethical issues such as the livestock and pet industries circuses zoos hunting and species extinction in fictional narrative and poetry from the nineteenth century modernista Regional indigenista and contemporary periods of Spanish American literature Book about Animals Rufus Merrill,2022-09-16 In *Book about Animals* Rufus Merrill presents a fascinating exploration of the animal kingdom intertwining careful observation with philosophical reflections Through a rich tapestry of vivid imagery and eloquent prose Merrill engages readers in a dialogue about the nature of animals and their interrelation with human experience The book s literary style is marked by a blend of lyrical narration and scientific insight inviting readers not only to understand animal behaviors but also to reflect on the ethical implications of human animal relationships Set against the backdrop of 19th century America it engages with contemporary scientific thought while maintaining an accessible narrative that speaks to both intellect and emotion Rufus Merrill a prominent figure in American literature and an advocate for animal rights draws from his extensive travels and interactions with diverse species to inform his writing His background in natural history and his philosophical inquiries into the role of animals in the human experience shape the book s compelling arguments for empathy and respect towards the non human world Merrill s commitment to understanding nature is evident in his nuanced prose making his viewpoints equally pertinent to scientific discussions and literary analyses This book is a must read for nature enthusiasts philosophers and anyone seeking deeper insights into the connection between humans and animals With its engaging narrative and

intellectual depth Book about Animals provides a unique lens through which to appreciate the wonders of the animal world making it an essential addition to any library **The Wild and the Domestic** Barney Nelson,2000 A challenging look at feminist criticism as well as ecocriticism and the burgeoning literature of the environment The author explores how American literature has shaped the way people view animals as wild and domestic and the consequences of this

**Peaceable Kingdoms** Kelly Maureen Flynn,1999 Animalia Americana Colleen Glenney Boggs,2013-01-08 Consulting a diverse archive of literary texts Colleen Glenney Boggs places animal representation at the center of the making of the liberal American subject From the bestiality trials of the seventeenth century Plymouth Plantation to the emergence of sentimental pet culture in the nineteenth Boggs traces a history of human animal sexuality in America one shaped by sexualized animal bodies and affective pet relations Boggs concentrates on the formative and disruptive presence of animals in the writings of Frederick Douglass Edgar Allan Poe and Emily Dickinson Engaging with the critical theories of Michel Foucault Giorgio Agamben Judith Butler Donna Haraway and others she argues that animals are critical to the ways in which Americans enact their humanity and regulate subjects in the biopolitical state Biopower or a politics that extends its reach to life thrives on the strategic ambivalence between who is considered human and what is judged as animal It generates a space of indeterminacy where animal representations intervene to define and challenge the parameters of subjectivity The renegotiation of the species line produces a tension that is never fully regulated Therefore as both figures of radical alterity and the embodiment of biopolitics animals are simultaneously exceptional and exemplary to the biopolitical state An original contribution to animal studies American studies critical race theory and posthumanist inquiry Boggs thrillingly reinterprets a long and highly contentious human animal history *Illustrated Catalogue of Books, Standard and Holiday* McClurg, Firm, Booksellers, Chicago,1897 Literature Criticism from 1400 to 1800 ,2007 **The Publishers Weekly** ,1923 Bulletin of Additions to the Libraries, Classified, Annotated and Indexed...
