Changemakers Adam Arvidsson, 2019-10-15 This book argues that as industrial capitalism enters a period of prolonged crisis, a new paradigm of industrious modernity is emerging. Based on small-scale, commons-based, and market-oriented entrepreneurship, this industrious modernity is being pioneered by the many outcasts that no longer find a place within a crumbling industrial modernity. Together, these new commons have radically reduced the capital requirements to engage in economic activity and are

providing new highly efficient tools of productive organization at little cost This timely analysis of the new forces of change in our societies today will be of great interest to anyone concerned with the impact of digital technologies and the future of capitalism
