SunHee Kim Gertz,2021-11-01 This study examines tales from The Metamorphoses by the Roman poet Ovid 43 BC 18 AD and from The Lais by the French poet Marie de France fl mid to late twelfth century to explore a paradox how can a vibrant complex and timeless vision be conveyed in convention informed and time bound language Marie plays against Ovid s tales to probe the dilemma thereby echoing Ovid who does the same to the canonical literary monuments of his day Both poets suggest that poetry can avoid the flattening effect of monumental canonizing not only by the creative use of literary echoes but also by shifting perspectives on the conventional which in turn can encourage readers to see reflections of many stories in any given tale Ovid and Marie suggest and encourage in this manner by presenting literary love s topoi and traditional lovers from a variety of metaliterary perspectives thereby eliciting active readerly memory as well as providing the opportunity to see the conventional afresh activity that allows even canonical texts to become living memorials **Deep Blue**

From Plato to Lancelot K. Sarah-Jane Murray,2008-06-12 Considered the most important figure in medieval French literature Chr tien de Troyes is credited with inventing the modern novel The roots of his influential Arthurian romance narratives remain the subject of investigation and great debate among medieval scholars In *From Plato to Lancelot* K Sara Jane Murray makes a highly original and profoundly significant contribution to the current scholarship by locating Chr tien's work at the intersection of two important traditions one derived from Greco Roman antiquity the other from the Celtic world of the Atlantic seaboard Drawing on a broad range of sources from Plato's *Timaeus* and Ovid's *Metamorphoses* to the anonymous *Lais* translated in the twelfth century by Marie de France Murray demonstrates that Chr tien and his contemporaries learned the importance of translation from the Mediterranean centered classical tradition She then turns to the Celtic world examining how Irish monastic scholarship as demonstrated by the *Voyage of St Brendan* and Celtic saints lives profoundly influenced the cultural identity of medieval Europe and paved the way for an interest in Celtic stories and legends With breathtaking insight and lucid prose Murray illustrates that Chr tien's singular genius lay in his ability to look to the future and to lay the foundations for a thoroughly new and French tradition of vernacular storytelling **Britten, Voice and Piano** Graham Johnson,2017-10-03 This collection of eight lectures by internationally acclaimed pianist Graham Johnson is based on a series of concert talks given at the Guildhall School of Music and Drama as part of the Benjamin Britten festival in 2001 The focus of the book is on Britten's songs starting with his earliest compositions in the genre Graham Johnson suggests that the nature of Britten's creativity is especially apparent in his setting of poetry that he becomes the poet's alter ego A chapter on Britten's settings of Auden and Eliot explores the particular influences these writers brought to bear at opposite poles of the composer's life The inspiration of fellow musicians is also discussed with a chapter devoted to Britten's time in Russia and his friendship with the Rostropovitch family Closer to home the book places in context Britten's folksong settings illustrating how he subverted the English folksong tradition by refusing to accept previous definitions of what constituted national loyalty Drawing on letters and diaries and featuring a number of previously unpublished photographs this book illuminates aspects of Britten's songs from the personal perspective of the pianist who worked closely with Peter Pears after Benjamin Britten was unable to perform through illness Johnson worked with Pears on learning the role of Aschenbach in *Death in Venice* and was official pianist for the first master class given by Peter Pears at Snape in 1972 **Wales since 1939** Martin Johnes,2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the

Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world
