Cangelosi, Charles E. Schaefer, 2019-10-21 This book helps practitioners choose from the broad range of play therapy approaches to create a comprehensive treatment plan that meets the individual needs of each child From leaders in the field the volume provides a flexible roadmap for assessment case formulation and intervention for frequently encountered psychological disorders and adversities The focus is creating a unique therapy prescription that is tailored to the child s presenting problems as well as his or her strengths challenges and developmental level Contributors present up to date knowledge on each clinical problem describe practices that have been shown to be effective and share vivid illustrations of work with 3 to 16 year olds and their parents Play Therapy with Traumatized Children Paris Goodyear-Brown, 2009-09-22 INTRODUCING A PRACTICAL MODEL OF PLAY THERAPY FOR TRAUMATIZED CHILDREN Some of the most rewarding work a therapist can do is help a child recover from a traumatic event But where to begin A growing body of play therapy literature offers many specific techniques and a variety of theoretical models however many therapists are still searching for a comprehensive model of treatment that incorporates solid theoretical constructs with effective play therapy interventions Clinicians have long recognized that trauma therapy is not just a matter of techniques but a journey with a beginning middle and end In a pioneering contribution to the field *Play Therapy with Traumatized Children A Prescriptive Approach* the author codifies the process in her model Flexibly Sequential Play Therapy FSPT Integrating non directive and directive approaches this components based model allows for the uniqueness of each child to be valued while providing a safe systematic journey towards trauma resolution The FSPT model demystifies play based trauma treatment by outlining the scope and sequence of posttraumatic play therapy and providing detailed guidance for clinicians at each step of the process Dramatically demonstrating the process of healing in case histories drawn from fifteen years of clinical practice with traumatized children *Play Therapy with Traumatized Children* addresses Creating a safe place for trauma processing Augmenting the child s adaptive coping strategies and soothing his or her physiology Correcting the child s cognitive distortions Ensuring that caregivers are facilitative partners in treatment Inviting gradual exposure to trauma content through play Creating developmentally sensitive trauma narratives Using termination to make positive meaning of the post trauma self

Engaging Children in Family Therapy Catherine Ford Sori, 2012-12-06 A common question at the initial meeting of a family therapist and a new client s is often whether or not to include a child or children in the counseling sessions The inclusion of a child in the family therapy process often changes the dynamic between client and therapist and between the clients themselves within the context of the counseling sessions And yet although this is such a common experience many counselors and family therapists are not adequately equipped to advise parents on whether to include a child in therapy sessions Once the child does make an appearance in the counseling session the therapist is faced with the challenges

inherent in caring for a child in addition to many concerns due to the unique circumstance of the structured therapy. Counseling a child in the context of a family therapy session is a specific skill that has not received the attention that it deserves. This book is intended as a guide for both novice and experienced counselors and family therapists covering a wide range of topics and offering a large body of information on how to effectively counsel children and their families. It includes recent research on a number of topics including working with children in a family context, the exclusion of children from counseling and counselor training methods and approaches, the effectiveness of filial play therapy, the effects of divorce on children and ADHD. Theoretical discussion is given to different family therapy approaches including family play therapy and filial play therapy. Central to the text are interviews with leaders in the field including Salvador Minuchin, Eliana Gil, Rise VanFleet, and Lee Shilts. A chapter devoted to ethical and legal issues in working with children in family counseling provides a much needed overview of this often overlooked topic. Chapters include discussion of specific skills relevant to child counseling in the family context, case vignettes, and examples, practical tips for the counselor, and handouts for parents.

Counseling Techniques Rosemary A. Thompson, 2015-08-27. The third edition of *Counseling Techniques* follows in its predecessors' steps, presenting the art and science of counseling in a clear and common sense manner that makes it accessible for counseling students and seasoned practitioners alike. New to this edition are chapters on play therapy and a host of other updates that illustrate ways to use different techniques in different situations. *Counseling Techniques* stresses the need to recognize and treat the client within the context of culture, ethnicity, interpersonal resources, and systemic support, and it shows students how to meet these needs using more than five hundred treatment techniques, each of which is accompanied by step-by-step procedures and evaluation methods.
