Tip 61 - Behavioral Health Services for American Indians and Alaska Natives U.S. Department of Health and Human Services, 2019-03-17 American Indians and Alaska Natives have consistently experienced disparities in access to healthcare services funding and resources quality and quantity of services treatment outcomes and health education and prevention services Availability accessibility and acceptability of behavioral health services are major barriers to recovery for American Indians and Alaska Natives Common factors that influence engagement and participation in services include availability of transportation and child care treatment infrastructure level of social support perceived provider
