Brownfields Cleaning And Reusing Contaminated Properties:

Brownfields Charles Bartsch, Elizabeth Collaton, 1997-01-14 Virtually every city in the nation's older industrial regions no matter its size grapples with the challenge of unused or abandoned manufacturing facilities and other industrial sites. Local public officials, economic development practitioners, and site owners who have sought to revitalize fallow industrial properties face daunting challenges: contamination of the buildings, equipment, and surrounding land and water. Public concern about health effects from hazardous chemicals, changing environmental law, and evolving private sector development and financing priorities have made it increasingly difficult for communities to restore and reuse former manufacturing sites. This study, sponsored by the Northeast Midwest Institute, offers analysis and practical guidance on how these blighted areas, brownfields, have been and can be brought back to life.

Reclaiming Brownfields Richard C. Hula, 2016-03-23 The environmental legacy of past industrial and agricultural development can simultaneously pose serious threats to human health and impede reuse of contaminated land. The urban landscape around the world is littered with sites contaminated with a variety of toxins produced by past use. Both public and private sector actors are often reluctant to make significant investments in properties that simultaneously pose significant potential human health issues and may demand complex and very expensive cleanups. The chapters in this volume recognize that land and water contamination are now almost universally acknowledged to be key social, economic, and political issues. How multiple societies have attempted to craft and implement public policy to deal with these issues provides the central focus of the book. The volume is unique in that it provides a global comparative perspective on brownfield policy and examples of its use in a variety of countries.

This Oxford Handbook draws on recent advances in several economic fields that investigate land use behavior, making this a must-read for those who want to understand the frontier of land economics.

Brownfields Legislation United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Environment and Hazardous Materials, 2001 [Recycling Land](#) Elizabeth Glass Geltman, 2000-05-05 Discusses how abandoned industrial land might be reused even under current pollution laws.

Rafson, 1999-07-05 The most practical up-to-date guide for turning Brownfields into Greenfields. This ready-to-use how-to manual, edited by active developers who have bought, remediated, and sold brownfields, gives you a commanding look at one of today's leading environmental issues. Filled with the latest hands-on tools, Harold and Robert Rafson's step-by-step book simplifies the task of removing the barriers to redevelopment that plague environmentally distressed properties. *Brownfields* goes beyond the legal and technical issues that preoccupy other current books to focus on
