**Improving Learning in College** Roz Ivanic, Richard Edwards, David Barton, Marilyn Martin-Jones, Zoe Fowler, Buddug Hughes, Greg Mannion, Kate Miller, Candice Satchwell, June Smith, 2009-03-04 What's the problem with literacy at college? How might everyday literacy be harnessed for educational ends? Based on the first major study of literacy practices in colleges in the UK, this book explores the reading and writing associated with learning subjects across the college curriculum. It investigates literacy practices in which students engage outside of college and teaching and learning strategies through which these can help support the curriculum. With insightful analyses of innovative practices, it considers ways of changing teaching practices to enable students to draw upon their full potential. Recent research work has challenged the myth of individual student deficit, arguing cogently that people have funds of knowledge from diverse and vibrant cultural roots and that these have been misguidedly disqualified by the education system. It has claimed that different ways with words can provide valuable resources for learning. However, the empirical exploration of this claim has lagged far behind the theoretical debate. *Improving Learning in College* resolves this by showing the integrity and richness of the literacy practices of a significant population not previously the focus of such research: those who take vocational and academic college courses in colleges. It addresses an issue which has not until now been developed within this research tradition: that of how these practices can not only be valued and validated but mobilised and harnessed to enhance learning in educational settings. This book will interest all teachers, teacher educators and researchers concerned with post-compulsory education and vocational education in compulsory schooling. *Progress in Tourism, Recreation and Hospitality Management* C. P. Cooper, 1991

We do the kids and parents in the new family as we change shape to accommodate each other. With more than 70 real-life stories revealing moments of vulnerability and moments of joy, this book provides an authentic insight into adoption. These stories take the reader on a journey through every stage of the adoption process, from making the initial decision to adopt to hearing from adoptees and offer an informative and emotive account of the reality of families' experiences along the way. It includes chapters on adopting children of all ages, as well as sibling groups adopting as a single parent, adopting as a same-sex couple, adopting emotionally and physically abused children, the nightmare of adoption, breaking down contact with birth parents, tracing and social media, and more. *Adopting: Real Life Stories* will be an informative and refreshing read for adopters, potential adopters, professionals, and all those whose lives have in some way been touched by adoption or want to know more about it. **Home Economics & Technology**, 1992 *Hospitality*, 1990
