Bubble Of American Supremacy:

The Bubble Of American Supremacy George Soros, 2004-10-13 Long known as the world's only private citizen with a foreign policy George Soros combines his razor sharp sense of economic trends with his passionate advocacy for open societies and decency in world politics to come up with a workable and severely critical analysis of the Bush administration's overreaching militaristic foreign policy Soros believes that this administration's plans abroad come from the same sort of bubble psychology that afflicted our markets in the late 1990s They have used a real fact our overwhelming military supremacy to create a deluded worldview that might makes right and that you're either with us or against us in the same way that the recent boom used a real fact the growth in technology to lead to a delusion the new economy Like the best of the books that have responded quickly to world events **The Bubble of American Supremacy** has a clear intriguing comprehensive thesis that makes necessary and compelling order of our seemingly disordered world

The Bubble of American Supremacy George Soros, 2004 **The Shadow Party** David Horowitz, Richard Poe, 2007-04-15 America is under attack Its institutions and values are under daily assault But the principal culprits are not foreign terrorists They are influential and powerful Americans secretly stirring up disunion and disloyalty in the shifting shadows of the Democratic Party Radical infiltrators have been quietly transforming America's societal cultural and political institutions for more than a generation Now backed by George Soros they are ready to make their move These progressive extremists have gained control over a once respectable but now desperate and dangerous political party From their perches in the Democratic hierarchy they seek to undermine the war on terror destabilize the nation and effect radical regime change in America With startling new evidence New York Times best selling authors David Horowitz and Richard Poe shine the light on the Shadow Party exposing its methods tactics and ultimate agenda

Borderless by Design Troy E. Nehls, 2024-01-09 In his previous book *The Big Fraud* Congressman Troy Nehls exposed the deep corruption perpetrated by the Democrats in the 2020 election Now in *Borderless by Design* he examines what's really happening with the Biden administration's destruction of America's southern border The Democrats and their deep state supporters want to cement permanent political power in Washington DC Having turned their backs on their traditional voters middle class blue collar Americans the Democrats have a desperate need to replenish their voter base That's why the Biden administration purposely acting against the Constitution and our country's laws is flooding our border with illegals Regardless of the harm done to America and to illegals themselves Democrats consider the power grab worth the collateral damage If that weren't bad enough the Democrats open border policies also aid and abet those who are trying to destroy America from George Soros and Davos Man to China and the Mexican drug cartels

The Enemy At Home Dinesh D'Souza, 2007-01-16 From *THE ENEMY AT HOME* In this book I make a claim that will seem startling at the outset The cultural left in this country is responsible for causing 9/11 In faulting the cultural left I am not making the absurd accusation that this group blew up the World Trade Center and the Pentagon I am saying that the cultural

left and its allies in Congress the media Hollywood the nonprofit sector and the universities are the primary cause of the volcano of anger toward America that is erupting from the Islamic world The Muslims who carried out the 9 11 attacks were the product of this visceral rage some of it based on legitimate concerns some of it based on wrongful prejudice but all of it fueled and encouraged by the cultural left Thus without the cultural left 9 11 would not have happened I realize that this is a strong charge one that no one has made before But it is a neglected aspect of the 9 11 debate and it is critical to understanding the current controversy over the war against terrorism I intend to show that the left has actively fostered the intense hatred of America that has led to numerous attacks such as 9 11 If I am right then no war against terrorism can be effectively fought using the left wing premises that are now accepted doctrine among mainstream liberals and Democrats Whenever Muslims charge that the war on terror is really a war against Islam Americans hasten to assure them they are wrong Yet as Dinesh D Souza argues in this powerful and timely polemic there really is a war against Islam Only this war is not being waged by Christian conservatives bent on a moral crusade to impose democracy abroad but by the American cultural left which for years has been vigorously exporting its domestic war against religion and traditional morality to the rest of the world D Souza contends that the cultural left is responsible for 9 11 in two ways by fostering a decadent and depraved American culture that angers and repulses other societies especially traditional and religious ones and by promoting at home and abroad an anti American attitude that blames America for all the problems of the world Islamic anti Americanism is not merely a reaction to U S foreign policy but is also rooted in a revulsion against what Muslims perceive to be the atheism and moral depravity of American popular culture Muslims and other traditional people around the world allege that secular American values are being imposed on their societies and that these values undermine religious belief weaken the traditional family and corrupt the innocence of children But it is not America that is doing this to them it is the American cultural left What traditional societies consider repulsive and immoral the cultural left considers progressive and liberating Taking issue with those on the right who speak of a clash of civilizations D Souza argues that the war on terror is really a war for the hearts and minds of traditional Muslims and traditional peoples everywhere The only way to win the struggle with radical Islam is to convince traditional Muslims that America is on their side We are accustomed to thinking of the war on terror and the culture war as two distinct and separate struggles D Souza shows that they are really one and the same Conservatives must recognize that the left is now allied with the Islamic radicals in a combined effort to defeat Bush s war on terror A whole new strategy is therefore needed to fight both wars In order to defeat the Islamic radicals abroad D Souza writes we must defeat the enemy at home

American Supremacy George Washington Crichton, 1908 **Gray's Anatomy** John Gray, 2009-07-07 The essential thoughts of today s most provocative philosopher Why is the human reason to blame for the worst crimes of the twentieth century Why is progress a pernicious myth Why is contemporary atheism just a hangover from Christian faith John Gray author of Straw Dogs and Black Mass is one of the most original and iconoclastic

thinkers of our time In this pugnacious and brilliant collection of essays from across his career he smashes through humanity's most cherished beliefs to overturn our view of the world and our place in it From Gray's Anatomy If humans are different from other animals it is chiefly in being governed by myths which are not creations of the will but creatures of the imagination All prevailing philosophies embody the fiction that human life can be altered at will Better aim for the impossible they say than submit to fate Invariably the result is a cult of human self assertion that soon ends in farce

Servants Of The Devil: The Facilitators Of The Criminal And Terrorist Networks Bernard Touboul, 2021-01-14 Since the end of the Cold War liberal capitalism has spread worldwide without any significant ideological rivalry characterized by the frenetic search for an ever increasing return on capital and constantly increasing profits a generalized un concern for the moral values of liberalism and for social inequalities and human misery The book *Servants of the Devil The Facilitators of the Criminal and Terrorist Networks* shows that this evolution has been possible thanks to legitimate actors equipped with the legal financial technical and influential means to facilitate the legitimization of criminals and the justification of such a criminal economy the *Servants of the Devil* acting as the legitimate facilitators of the criminal and terrorist economies The book aims to alert security authorities government officials business professional and financial leaders and the media that criminal and terrorist networks have thoroughly penetrated the political economic and social structures of the contemporary world and they could not operate without the extensive and willing cooperation of these facilitators Recommendations are made in this book to alter the targets of law enforcement forces and the justice system by putting more emphasis on the facilitators by naming shaming and prosecuting them to seriously disable the criminals and terrorists The legal structure needs to be altered detailing procedures to be used by critical institutions as well as the intelligence and analytic techniques to be developed to stay ahead of the criminals own constantly altered techniques The book provides a detailed account of the problem and how it is corrupting the Western society enhancing the need for a new economic paradigm that displays a real and actual economic understanding of the world and of any individual country's economic activity and shifting the ways of economic analysis to bring out the actual strength and role of criminal and terrorist activities in local regional and international governance from the shadows

American Terminator Ziauddin Sardar, Merry Wyn Davies, 2004-10-01 A hard hitting sequel and companion piece to the international bestseller *Why Do People Hate America* The book begins its examination of the state of American society with the California Gubernatorial Election of 2003 The victory of Hollywood superstar Arnold Schwarzenegger in that election is more than the triumph of a populist candidate it is a telling indicator of how an uninformed people has been misled by a political illusion This is fantasy politics and it is set to unfold across the US in the future It is therefore a vital concern for people everywhere How American democracy is understood and enacted in the United States is an essential guide to how its nation building efforts abroad operate The authors argue that the failures of American democracy at home its increasing reliance on fantasy versions of reality are blueprints for its failures overseas

What America cannot resolve at home as much as how it constructs and operates its foreign policy makes the world a more unstable and dangerous place for everyone. The authors diagnose these failures as Schwarzenegger's Laws. These laws allow us to understand how Hollywood's global superstar was elected to office not as a reaction against political failure but as the pure expression of an enduring and disturbing thread of fantasy within American politics, culture, and society. As a political candidate, Schwarzenegger did not need to create a conventional political platform; he had only to present himself for he was already an oven-ready candidate, an established persona with a set of values defined by his films, which provided him with a definable policy stance in the public imagination. With America now the lone hyperpower, Schwarzenegger's Laws affect every citizen of every country.

General Ashcroft N. V. Baker, 2006. Reviled as a fascist and zealot by libertarians and liberals but praised as a great patriot and devout man of God by many conservatives, John Ashcroft may have been the most powerful and polarizing attorney general in our nation's history. Looking past such oversimplified stereotypes, Nancy Baker offers the first in-depth study of Ashcroft's controversial tenure as attorney general and as domestic commander in our campaign against global terrorism. Addressing new concerns about challenges to civil liberties in the wake of 9/11, Baker provides a critical assessment of Ashcroft's impact on national life within the context of an enormous expansion of presidential power. Baker depicts a man who even before 9/11 was in search of a mission and then found it in the War on Terror. She explores how Ashcroft's counterterrorism actions eroded checks on executive power, arguing that the attorney general used both the formal and informal powers of his office to expand executive and law enforcement authority and did so at the additional expense of criminal procedural rights, privacy rights, and government transparency. Baker tells how the war against terrorism, the unique legal policy role of the attorney general, and Ashcroft's presence in that office dramatically expanded the power and impact of executive power in domestic affairs. She identifies Ashcroft's rhetorical tactics that set his actions at odds with the public interest, such as browbeating critics and marginalizing dissent, and challenges the success claimed by Ashcroft and his supporters in safeguarding America by documenting the Justice Department's lack of effectiveness in key prosecutions. She also includes an enlightening analysis of the Patriot Act and its implications for both civil liberties and government power. By documenting the ongoing importance of Ashcroft's legacy, a legacy now continued by Alberto Gonzalez, Baker shows how he dramatically changed the office and disrupted our constitutional system of divided and checked powers. Her close scrutiny of Ashcroft's actions vividly highlights the role that an attorney general can play in shaping presidential power during national crises and provides a cautionary tale for anyone eager to protect our civil liberties.

The Mennonite Quarterly Review Harold Stauffer Bender, 2006

Crescent Between Cross and Star Iftikhar Haider Malik, 2006. Misperceptions and reservations about Islam registered a significant impetus following the tragic events of 9/11 and 7/7. Against a backdrop of intense Islamophobia and neo-conservatism, military invasions of Muslim countries, and restrictive legislation on immigration and civil liberties, have seriously affected inter-community relationships, bringing the Muslim diaspora under

serious scrutiny Concurrently scholars and journalists have portrayed Islam as a hegemonic ideology needing reformation Polemicists and neo orientalis have left no stone unturned in denigrating Islamic humanism Diehard evangelists provide moral justification for this animus which reverberates across the globe through similar groups such as Likud and Hindutva While Muslims are overwhelmingly aggrieved over the destruction and denigration of their communities and heritage their problems of poverty universal disempowerment and alienation remain unattended by both their rulers and their Western backers whose own interests take priority Exposes of torture and brutalization of internees at Guantanamo Bay Abu Ghraib Jail Bagram Air Base and Israel s Facility 1391 and massacres such as those at Mazar i Sharif Kandahar Gujarat and Jenin have exacerbated Muslim anguish However such assaults have also generated an overdue intra Muslim debate in which scholars and youth groups can conduct a vital discourse on gender equality democracy pluralism and modernity This volume presents a historical account of relationships among the Abrahamic traditions and then focuses on recent scholarship and polemical outpourings which have spawned anti Muslim sentiments Case studies from Western and Southern Asia illustrate a complex interplay between the written word and volatile geopolitics Despite its focus on the Judaic Christian formulations vis a vis Islam the book also attempts to assess the Muslim position on ideological challenges presented by this dramatic phase in the tri polar relationship

The Iraq War Rick Fawn,Raymond A. Hinnebusch,2006 While the war in Afghanistan saw most industrial countries back the US led campaign the subsequent war in Iraq has profoundly divided international opinion and likely represents a watershed in the post Cold War international order The Iraq War examines the full range of explanations of the conflict as well as its significance for the Middle East for key international relationships and for the future of the international system The authors critically assess the foreign policy decisions of both global and regional actors What policies were adopted and against what opposition What state interests were served or compromised in the process What are the likely longer term consequences of each country s position Addressing these questions as well as broader issues of regional stability global political economy and the changing nature of warfare they offer an in depth systematic analysis that brings clarity to this complex subject
