## **Buddha And His Religion:**

**The Buddha and His Religion (Routledge Revivals)** J. Saint-Hilaire, 2014-03-18 First published in 1914 this is a fascinating investigation of the origins of Buddhism drawing on a wealth of evidence relating to the life and teachings of the Buddha First considering how the study of the Buddhist doctrine can be used to critique religious systems such as Christianity Barth lemy Saint Hilaire proceeds to discuss Buddhism at three different periods of its history the life and legend of the Buddha as demonstrated within canonical works Buddhism in India during the seventh century and finally Buddhism in Sri Lanka formally Ceylon at the start of the twentieth century Principally a philosophical study surrounding the origins and principles of Buddhism this reissue will be of particular value to students researching contemporary perceptions of the Buddhist faith *The Buddha and His Religion* Jules Barthelemy-Saint-Hilaire, 1862 [The Buddha and His Religion](#) J.

Barthelemy Saint-Hilaire, 2015-06-02 Excerpt from *The Buddha and His Religion* In publishing this work on Buddhism I have but one purpose in view that of bringing out in striking contrast the beneficial truths and the greatness of our spiritualistic beliefs Nurtured in an admirable philosophy and religion we do not seek to know their value and we remain ignorant of the great debt we owe to them We are satisfied to possess them while at the same time we are often indifferent and even ungrateful towards them Although civilization is incessant in its progress and we reap its benefits we never think of inquiring whence come the welfare the security and the comparative enlightenment which civilization brings with it while we see around us a multitude of other races which from the beginning of time have remained in a semi barbarous condition incapable of forming any tolerable social conditions or governments I believe that the study of Buddhism About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

[The Buddha And His Religion](#) Jules Barthélemy Saint-Hilaire, 1997-01-01 Description The present work is a critical study of Buddhism and its doctrine originally published in French as *Le Bouddha et sa religion* in 1866 It gives an outline of the history of Buddhism the birth of Buddha his renunciation his teachings and his death The Buddhist doctrines as put forth by the canons are carefully expounded in relation to western religion and philosophy and judged according to their merits and defects It also narrates the spread of Buddhism beyond its place or origin to Nepal Tibet Mongolia China and Ceylon Particular emphasis is given to the state of Buddhism as it existed twelve hundred years after the death of Buddha as is set forth in the Travels and memoirs of Xuanzang A separate chapter is devoted to Buddhism in Ceylon Contribution of scholars like B H Hodgson Alexander Csoma George Turnour Eugene Burnouf and Spence Hardy who were pioneers in the study of

Buddhism and are responsible for all that we know of Buddhism today is also discussed BUDDHA AND HIS RELIGION J. BARTHELEMY. SAINT-HILAIRE,2018 **The Buddha and His Religion (Classic Reprint)** J. Barthélemy Saint-Hilaire,1972 **The Philosophy of the Christian Religion** Andrew Martin Fairbairn,1909 **The Philosophy of the Christian Religion** A. M. Fairbairn,2017-03-09 This book may be described as an attempt to do two things first to explain religion through nature and man and secondly to construe Christianity through religion The author conceives religion to be a joint product of the mind within man and the nature around him the mind being the source of the ideas which constitute its soul the nature around determining the usages and customs which build up its body He does not think therefore that any one of its special forms can be explained without the local nature which begot and shaped it or that its general being can be resolved and construed without the reason or thought which is common to the race He sees in religion the greatest of all man s unconscious creations and the most potent of the means which the past while it was still a living present formed for the making of the man and the times that were yet to be From the Preface Buddha and His Religion Gogerly Hardy Kellogg,1894 **The Invention of World Religions** Tomoko Masuzawa,2024-05-31 The idea of world religions expresses a vague commitment to multiculturalism Not merely a descriptive concept world religions is actually a particular ethos a pluralist ideology a logic of classification and a form of knowledge that has shaped the study of religion and infiltrated ordinary language In this ambitious study Tomoko Masuzawa examines the emergence of world religions in modern European thought Devoting particular attention to the relation between the comparative study of language and the nascent science of religion she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms Aryan on one hand and Semitic on the other Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European
