American National Biography

John A. Garraty, Mark C. Carnes, 2005-05-12 American National Biography is the first new comprehensive biographical dictionary focused on American history to be published in seventy years. Produced under the auspices of the American Council of Learned Societies, the ANB contains over 17,500 profiles on historical figures written by an expert in the field and completed with a bibliography. The scope of the work is enormous, from the earliest recorded European explorations to the very recent past. John Neuhaus Archie Green, 1960 *The World Encyclopedia of Cartoons* Maurice Horn, 1999 Surveys on an international scale the entire cartoon field: caricature, editorial, and political cartoons, sports cartoons, syndicated panels, and animated cartoons. **Wolf-Women and Phantom Ladies** Steven Dillon, 2015-03-17 Provides encyclopedic coverage of female sexuality in 1940s popular culture. Popular culture in the 1940s is organized as patriarchal theater. Men gaze upon, evaluate, and coerce women who are obliged in their turn to put themselves on sexual display. In such a thoroughly patriarchal society, what happens to female sexual desire? *Wolf Women and Phantom Ladies* unearths this female desire by conducting a panoramic survey of 1940s culture that analyzes popular novels, daytime radio serials, magazines, and magazine fiction, marital textbooks, Hollywood and educational films, jungle comics, and popular music. In addition to popular works, Steven Dillon discusses many lesser-known texts and artists, including Ella Mae Morse, a key figure in the founding of Capitol Records, and Lisa Ben, creator of the first lesbian magazine in the United States. This exciting book presents a truly capacious understanding of US culture and offers a spectacular array of analyses of how the decade's cultural discourse struggled to define female desire and how so much male literature and filmmaking sought to constrain it. Dillon's study will teach scholars of modern American literature and culture a great deal more about the 1940s than they already know or think they know. It is a brilliant addition to the field. Gordon Hutner, author of *What America Read: Taste, Class, and the Novel, 1920-1960*

Journal of American Folklore, 1960 **Children's Books in Print, 2007**, 2006 The Sheet Music Exchange, 1989 Selling Folk Music Ronald D. Cohen, David Bonner, 2017-11-29 *Selling Folk Music: An Illustrated History* highlights commercial sources that reveal how folk music has been packaged and sold to a broad, shifting audience in the United States. Folk music has a varied and complex scope and lineage, including the blues, minstrel tunes, Victorian parlor songs, spirituals, and gospel tunes, country and western songs, sea shanties, labor and political songs, calypsos, pop, folk, folk rock, ethnic, bluegrass, and more. The genre is of major importance in the broader spectrum of American music, and it is easy to understand why folk music has been marketed as America's music. *Selling Folk Music* presents the public face of folk music in the United States via its commercial promotion and presentation throughout the twentieth century. Included are concert flyers, sheet music, book, songbook, magazine, and album covers, concert posters and flyers, and movie lobby cards and posters, all in their original colors. The 1964 hootenanny craze, for example, spawned such items as a candy bar, pinball machine, bath powder, paper dolls, Halloween costumes, and beach towels. The almost five hundred images in *Selling Folk Music* present a new way to catalog the history of folk music while highlighting the transformative nature of the genre. Following the detailed

introduction on the history of folk music illustrations from commercial products make up the bulk of the work presenting a colorful complex history
