Case Against Divorce:

The Case Against Divorce Diane Medved,1990-05-28 Divorce may not be the answer to marital problems Clinical psychologist Diane Medved offers step by step methods for recognizing marital troubles and how to work them out together the truths behind the myths of divorce and the most common reasons for divorce and what they truly mean Fine **The Case Against Divorce** Mark Hamilton,David Logan,1986 **The American Ruling Cases as Determined by the Courts** Basil Jones,1917 **Coerced Liberation** Zamira Abman,2024-05-01 In 1924 the Bolshevik regime began an unprecedented campaign to forcibly emancipate the Muslim women of Tajikistan The emancipatory reforms included unveiling women passing progressive family code laws and educating women By the 1950s the Soviet regime largely succeeded in putting an end to veiling child marriage polygamy and bride payments Yet today there is a resurgence in these practices the Bolsheviks claimed to have eliminated Coerced Liberation reveals that the Soviet regime transformed the lives of urban women within a single generation but without lasting effect Drawing on unique primary sources the book examines why this occurred It addresses questions that are pertinent to ongoing debates in the international arena What happens when an outside force attempts to modernize a society deeply rooted in centuries of patriarchal norms and values In what ways can a devout religious rural community respond to survive and adapt to such interventions And how does a state centred top down approach towards women s emancipation work Coerced Liberation presents critical insights for readers interested in gender dynamics within Muslim communities the roles of women in Islam the resurgence of Islam in former colonial territories the effectiveness of a top down approach towards women s movements and more **Reports of Cases Determined in the District Courts of Appeal of the State of California** ,1916 The Moral Dignity of Man Peter E. Bristow,1997 Many of today s moral conflicts concerning family values and medical ethics have their basis in different conceptions of man and the nature and purpose of human life Fr Bristow argues that contemporary utilitarianism and the various forms of permissive morality are insufficient for dealing with these matters and that only a natural law morality is adequate to the needs and dignity of the human person He goes on to apply its principles to the issues that derive from advancing technology such as genetic engineering in vitro fertilization embryo research drugs and painkillers and ecology BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *In re Lembrich's Estate; Smith v.
