Casebook Of Environmental Issues In Canada:

A Casebook of Environmental Issues in Canada Monica E. Mulrennan,1997-11-10 **Environmental Science and a Casebook of Environmental Issues in Canada** Botkin,1997-11-01 **A Casebook of Environmental Issues in Canada** Monica E. Mulrennan,2007 **Caring for Eeyou Istchee** Monica E. Mulrennan,Colin H. Scott,Katherine Scott,2019-11-15 How do Indigenous communities in Canada balance the development needs of a growing population with cultural commitments and responsibilities as stewards of their lands and waters Caring for Eeyou Istchee recounts the extraordinary experience of the James Bay Cree community of Wemindji Quebec who partnered with a multi disciplinary research team to protect territory of great cultural significance in ways that respect community values and circumstances This volume tackles fundamental questions What is environmental protection What should be protected What factors inform community goals How does the natural and cultural history of an area inform protected area design How can the authority and autonomy of Indigenous institutions of land and sea stewardship and the knowledge integral to them be respected and reinforced In answering these questions Indigenous and non Indigenous contributors present a comprehensive account of one of the world s most dynamic coastal environments More particularly they demonstrate how protected area creation is a powerful process for supporting Indigenous environmental stewardship and cultural heritage **Sustainable Development and Canada** O.P. Dwivedi,2001-05 This book investigates the complexities of Canadian environmental policy Global Environmental Issues David Kemp,2002-09-26 Global warming ozone depletion drought acid rain their causes are viewed as extraordinarily complex their effects are assumed catastrophic Global Environmental Issues provides the key to understanding our potential environmental crisis through an analysis of the common component to all environmental issues the atmosphere This book provides a balanced introduction to both the dangers and advantages of human interference with the environment Socio economic cultural and political factors are assessed and sophisticated scientific ideas are expressed in a clear non technical manner This new edition of a best selling text is completely updated revised and expanded

Assessment and Mitigation of Indoor Radon Problem: A Case Book for Radon Professionals Ashok Kumar, Akhil Kadiyala,2015-10-30 Radon is a highly radioactive gas and a waste product of nuclear reactors Radon is also carcinogenic for this reason and can be linked to the incidence of lung cancer in non smoking individuals who often spend time indoors Assessment and Mitigation of Indoor Radon Problem is a case book for professionals who are interested in modeling the distribution of Radon gas in a real environment The book is a collection of results taken from a survey of locations in the US state of Ohio The data in this case book is based is based on the homes and mitigation databases of the Ohio Radon Information System ORIS maintained by the Air Pollution Research Group APRG at The University of Toledo in Toledo This case book will be of interest to software engineers and environmental health workers seeking to build a geographic information system for tracking radioactive waste that can contaminate residential areas particularly household indoors

Capacity Building in National Environmental Policy Helmut Weidner, Martin Jänicke, 2013-03-09 This book is the second collection of systematic case studies describing national environmental policies in 17 countries in terms of capacity building see Appendix The OECD defines environmental capacity building as a society's ability to identify and solve environmental problems While various institutions including UNEP FAO World Bank and OECD have hitherto used the terms environmental capacity and capacity building almost exclusively with reference to developing countries we have extended the concepts to industrialized countries as well The first collection edited by Martin Jänicke Helge Joergens both Free University Berlin and Helmut Weidner Social Science Research Center Berlin was published in 1997 under the title National Environmental Policies A Comparative Study of Capacity Building Berlin etc Springer Verlag It included 13 studies of countries As in the first volume chapter I presents the conceptual framework underlying the national case studies It is a slightly shorter version of the corresponding chapter in volume I The design of all case studies in the two volumes is largely congruent with this conceptual framework Although the various sections of the studies do not always have identical titles and subtitles the central elements of the capacity building approach have been applied in all cases
