Broken Cord:

Technical Manual United States. War Department,1942 *International Adoption in North American Literature and Culture* Mark Shackleton,2017-09-06 This book is about transnational and transracial adoption in North American culture It asks to what extent does the process of international adoption reflect imperious inequalities around the world or can international adoption and the personal experiences of international adoptees today be seen more positively as what has been called the richness of adoptive being The areas covered include Native North American adoption policies and the responses of Native North American writers themselves to these policies of assimilation This might be termed adoption from within Adoption from without transnational adoption is primarily dealt with in articles discussing Chinese and Korean adoptions in the US The third section concerns such issues as the multiple forms that adoption can take notions of adoption and identity adoption and the family and the problems of adoption Broken Cord Michael Dorris,1990-10-12 The controversial national bestseller that received unprecedented media attention sparked the nation s interest in the plight of children with Fetal Alcohol Syndrome and touched a nerve in all of us Winner of the 1989 National Book Critics Circle Award

Coast Artillery Gunners' Instruction United States. War Department,1942 *Nondestructive Characterization of Materials IV* J.F. Bussière,Robert E. Green,C.O. Ruud,1992-02-29 There is a great deal of interest in extending nondestructive technologies beyond the location and identification of cracks and voids Specifically there is growing interest in the application of nondestructive evaluation NOEL to the measurement of physical and mechanical properties of materials The measurement of materials properties is often referred to as materials characterization thus nondestructive techniques applied to characterization become nondestructive characterization NDCI There are a number of meetings proceedings and journals focused upon nondestructive technologies and the detection and identification of cracks and voids However the series of symposia of which these proceedings represent the fourth are the only meetings uniquely focused upon nondestructive characterization Moreover these symposia are especially concerned with stimulating communication between the materials mechanical and manufacturing engineer and the NDE technology oriented engineer and scientist These symposia recognize that it is the welding of these areas of expertise that is necessary for practical development and application of NDC technology to measurements of components for in service life time and sensor technology for intelligent processing of materials These proceedings are from the fourth international symposia and are edited by c o Ruud J F Bussiere and R E Green Jr The dates places etc of the symposia held to date area as follows Symposia on Nondestructive Methods for TITLE Material Property Determination DATES April 6 8 1983 PLACE Hershey PA USA CHAIRPERSONS C O Ruud and R E Green Jr War Department Technical Manual ,1940 Textbook of Military Aeronautics Henry Woodhouse,1918 **At Women's Expense** Cynthia R. DANIELS,Cynthia R Daniels,2009-06-30 Some say the fetus is the tiniest citizen If so then the bodies of women themselves have become political arenas or recent cases suggest battlefields A

cocaine addicted mother is convicted of drug trafficking through the umbilical cord Women employees at a battery plant must prove infertility to keep their jobs A terminally ill woman is forced to undergo a cesarean section No longer concerned with conception or motherhood the new politics of fetal rights focuses on fertility and pregnancy itself on a woman's relationship with the fetus How exactly Cynthia Daniels asks does this affect a woman's rights Are they different from a man's And how has the state helped determine the difference The answers rigorously pursued throughout this book give us a clear look into the state's paradoxical role in gender politics as both a challenger of injustice and an agent of social control In benchmark legal cases concerned with forced medical treatment fetal protectionism in the workplace and drug and alcohol use and abuse Daniels shows us state power at work in the struggle between fetal rights and women's rights These cases raise critical questions about the impact of gender on women's standing as citizens and about the relationship between state power and gender inequality Fully appreciating the difficulties of each case the author probes the subtleties of various positions and their implications for a deeper understanding of how a woman's reproductive capability affects her relationship to state power In her analysis the need to defend women's right to self sovereignty becomes clear but so does the need to define further the very concepts of self sovereignty and privacy The intensity of the debate over fetal rights suggests the depth of the current gender crisis and the force of the feelings of social dislocation generated by reproductive politics Breaking through the public mythology that clouds these debates At Women's Expense makes a hopeful beginning toward liberating woman's body within the body politic

The Homestead ,1928 **Everybody's Magazine** ,1920 **Car Builders' Dictionary** ,1909 *Why I Can't Read Wallace Stegner and Other Essays* Elizabeth Cook-Lynn,1996-09-01 This provocative collection of essays reveals the passionate voice of a Native American feminist intellectual Elizabeth Cook Lynn a poet and literary scholar grapples with issues she encountered as a Native American in academia She asks questions of critical importance to tribal people who is telling their stories where does cultural authority lie and most important how is it possible to develop an authentic tribal literary voice within the academic community In the title essay Why I Can't Read Wallace Stegner Cook Lynn objects to Stegner's portrayal of the American West in his fiction contending that no other author has been more successful in serving the interests of the nation's fantasy about itself When Stegner writes that Western history sort of stopped at 1890 and when he claims the American West as his native land Cook Lynn argues he negates the whole past present and future of the native peoples of the continent Her other essays include discussion of such Native American writers as Michael Dorris Ray Young Bear and N Scott Momaday the importance of a tribal voice in academia the risks to American Indian women in current law practices the future of Indian Nationalism and the defense of the land Cook Lynn emphasizes that her essays move beyond the narrowly autobiographical not just about gender and power not just focused on multiculturalism and diversity but are about intellectual and political issues that engage readers and writers in Native American studies Studying the Indian Cook Lynn reminds us is not just an academic exercise but a matter of survival

for the lifeways of tribal peoples Her goal in these essays is to open conversations that can make tribal life and academic life more responsive to one another
