Brooks Adams Constructive Conservative:

Brooks Adams, Constructive Conservative Thornton Anderson, 1951 Comprehensive treatment of Adams theories in the fields of philosophy of history legal education and public administration [The New Empire](#) Walter LaFeber, 1998 This classic work by the distinguished historian Walter LaFeber presents his widely influential argument that economic causes were the primary forces propelling America to world power in the nineteenth century Cornell University Press is proud to issue this thirty fifth anniversary edition featuring a new preface by the author In this Beveridge Award winning study Walter LaFeber probes beneath the apparently quiet surface of late nineteenth century American diplomacy undisturbed by major wars and undistinguished by important statements of policy He finds those who shaped American diplomacy believed expanding foreign markets were the cure for recurring depressions In thoroughly documenting economic pressure on American foreign policy of the late nineteenth century the author has illuminated a shadowy corner of the national experience The theory that America was thrust by events into a position of world power it never sought and was unprepared to discharge must now be re examined Also brought into question is the thesis that American policymakers have depended for direction on the uncertain compass of utopian idealism *American Historical Review* [The Conservative Mind, from Burke to Santayana](#) Russell Kirk, 1964 **The Idea of Decline in Western History** Arthur Herman, 2010-06-15 Historian Arthur Herman traces the roots of declinism and shows how major thinkers past and present have contributed to its development as a coherent ideology of cultural pessimism From Nazism to the Sixties counterculture from Britain s Fabian socialists to America s multiculturalists and from Dracula and Freud to Robert Bly and Madonna this work examines the idea of decline in Western history and sets out to explain how the conviction of civilization s inevitable end has become a fixed part of the modern Western imagination Through a series of biographical portraits spanning the 19th and 20th centuries the author traces the roots of declinism and aims to show how major thinkers of the past and present including Nietzsche DuBois Sartre and Foucault have contributed to its development as a coherent ideology of cultural pessimism *The Conservatives* Patrick Allitt, 2009-05-26 This lively book traces the development of American conservatism from Alexander Hamilton John Adams and Daniel Webster through Abraham Lincoln Teddy Roosevelt and Herbert Hoover to William F Buckley Jr Ronald Reagan and William Kristol Conservatism has assumed a variety of forms historian Patrick Allitt argues because it has been chiefly reactive responding to perceived threats and challenges at different moments in the nation s history While few Americans described themselves as conservatives before the 1930s certain groups beginning with the Federalists in the 1790s can reasonably be thought of in that way The book discusses changing ideas about what ought to be conserved and why Conservatives sometimes favored but at other times opposed a strong central government sometimes criticized free market capitalism but at other times supported it Some denigrated democracy while others championed it Core elements however have connected thinkers in a specifically American conservative tradition in particular a skepticism about human

equality and fears for the survival of civilization Allitt brings the story of that tradition to the end of the twentieth century examining how conservatives rose to dominance during the Cold War Throughout the book he offers original insights into the connections between the development of conservatism and the larger history of the nation *A Road to Nowhere* Matthew W. Slaboch, 2018 Matthew W Slaboch examines the work of German philosophers Arthur Schopenhauer and Oswald Spengler Russian novelists Leo Tolstoy and Aleksandr Solzhenitsyn and American historians Henry Adams and Christopher Lasch rare skeptics of the idea of progress who have much to offer political theory a field dominated by historical optimists The Growth of the American Thought Merle Eugene Curti, Hailed as a pioneer achievement upon its original publication and awarded the Pulitzer Prize in history in 1944 The Growth of American Thought has won appreciative reviews and earned the highest regard among historians of the national experience With his elaboration of the complex interrelationships between the growth of American thought and the whole American social milieu Curti creates not only an intellectual history but a social history of American thought *Laureates of Imperialism* Herbert Aptheker, 1954 **The Prophets of Doom** Neema Parvini, 2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP growth at any cost However the end of the Cold War failed to produce the end of history as hoped a fact brought home to many by Russia's invasion of Ukraine in 2022 Material wealth and Progress in the name of social justice have not made people happier or more united but quite the opposite Anxiety depression fearfulness sadness loneliness and anger have all massively increased since 1970 with the male suicide rate at an all time high Western society seems to be divided against itself across every line conceivable left versus right women versus men non whites versus whites globalists versus populists the elites versus the people people who think that men can be women and vice versa versus those who insist that they cannot and so on Seventy three percent of Americans believe their country is on the wrong track with similar views reflected in Britain and across Europe The Prophets of Doom explores eleven thinkers who not only dared to contradict the dominant linear and progressive view of history but also predicted many of the political and social maladies through which we are living **American Patricians as Social Critics, 1865-1914** Michael Dorsey Clark, 1964 **Mental Territories** Katherine G. Morrissey, 2018-09-05 Rarely recognized outside its boundaries today the Pacific Northwest region known at the turn of the century as the Inland Empire included portions of the states of Washington and Idaho as well as British Columbia Katherine G Morrissey traces the history of this self proclaimed region from its origins through its heyday In doing so she challenges the characterization of regions as fixed places defined by their geography economy and demographics Regions she argues are best understood as mental constructs internally defined through conflicts and debates among different groups of people seeking to control a particular area's identity and direction She tells the story of the Inland Empire as a complex narrative of competing perceptions and interests *The Unusable Past* Jan Carletta Dawson, 1984 **The Jew in American Literature** Solomon Liptzin, 1966

The End of American Exceptionalism David M. Wrobel, 1993 A lucid and rewarding synthesis of cultural and western history Richard W Etulain author of *Writing Western History* Wrobel makes a fine contribution to the study of myth by analyzing the anxiety or angst Americans felt about the frontier in the half century after 1890 This is an excellent book on a big subject executed with much skill *Western Historical Quarterly* Direct admirably brief and crisply written *Journal of American History* *The Heathen Chinees* Robert McClellan, 1971 It is the purpose of this study to explore the background of American orientation to China and to illuminate the image which was shaped at the turn of the century as result of the confrontation between this nation and an emerging China xi Introduction *The Hopkins Review*, 1952 **Send These to Me** John Higham, 1975 Examines the broad relations between immigration and other aspects of American history the particular experiences of Jewish immigrants and the dimensions and implications of ethnic diversity in the United States *Understanding the American Past* Edward Norman Saveth, 1965 *Summaries of Doctoral Dissertations, University of Wisconsin* University of Wisconsin, 1950 *Conservatism in America* Clinton Rossiter, 1955
