and Slovenia this work provides a window into the critical reception of Steinbeck's works around the globe. In doing so, this volume incorporates diverse approaches including cultural studies, film analysis, gender studies, and most especially comparative studies of sociopolitical, philosophical, and religious motifs in Steinbeck's fiction. This collection includes four parts, each considering a broad dimension of Steinbeck's work. The cultural and social dimensions of his fiction are considered with essays by prominent scholars on moral philosophy, dysfunctional families, Ayn Rand's possible influence, and other topics. The second section focuses on aesthetic dimensions, including considerations of Steinbeck's theatrical vision and postmodern aspects of his work. The third section considers reader reception issues and, in particular, surveys Islamic, Buddhist, and Indian philosophy echoed in the author's works. The final section of the book is an essay considering the global possibilities for future Steinbeck studies. A convenient casebook of the latest in Steinbeck studies, this volume documents the breadth of current international interest in his fiction, his films, and his philosophy. The included essays are particularly useful for showing critical readings from various cultural standpoints, readings that often stand in sharp, interesting contrast to each other. Overall, this collection of essays gives an unmatched sense of how John Steinbeck's work continues to reach readers and scholars around the world.
