Case For Courage:

The Case for Courage Kevin Rudd, 2021-03 For some time Australia's democracy has been slowly sliding into disrepair. The nation's major policy challenges go unaddressed, our economic future is uncertain, and political corruption is becoming normalised. It's tempting but distracting to point to the usual list of reasons: from the declining calibre of the political class to the growing polarisation of politics. But we can't understand the current predicament of our democracy without recognising the central role of Murdoch's national media monopoly. In Queensland, where national elections are determined, he owns thirteen of the state's fourteen newspapers. All his papers are loss-making and retained for political influence only. Nationally, they act as a Liberal Party protection racket, providing zero accountability on Coalition corruption and incompetence. Together with the Liberal Party, the Murdoch media cultivates a climate of national anxiety, fear, and anger through relentless campaigns on deficit, debt, and the threat to Australia from ever-changing but always nefarious foreign interests. Their goal is an anxious Australia, reinforced by the latest campaign applications of political neuroscience, permanently predisposing the electorate towards the reassurance of having conservatives in power. For these reasons, there is no longer a level playing field in Australian politics. We won't see another progressive government in Canberra until we deal with this cancer in our democracy. Three more things must change for Labor to be returned to office: Labor must significantly broaden its political base, demolish the entire rationale for the conservative political project now that the Liberal Party has abandoned its position on debt, deficit, and government intervention in the economy, and put forward a clear plan dealing with the challenges ahead: recurring pandemics, demographic decline, technological disruption, undermining economic competitiveness, and employment; the rise of China, and the continued economic and environmental devastations of climate change. All four tasks are essential. All four will require great political courage to bring about fundamental change. And now is the time for women and men of courage to act. In the National Interest is a new series in the Monash University Publishing list that is focused on the challenges Australia confronts. The series informs, influences, and inspires public discourse. Showcasing experts both from within Monash and beyond, these short, thought-provoking, and accessible books will address the major issues of our times, from public policy to governance and government. **The case for courage** William Moses Kunstler, 1962*

Psychological Courage Daniel Putman, 2004-05-10 While the virtues of physical courage and moral courage have a long history in ethics, the courage to face personal psychological problems has never been fully integrated into the discipline. Psychological Courage explores the ethical dimension and multiple facets of the virtue of psychological courage, as dubbed by author Daniel Putman. In this book, Putman outlines three forms of courage: physical, moral, and psychological. He defines psychological courage as the courage to face addictions, phobias, and obsessions, and to avoid self-deception and admit mistakes. This book analyzes what psychological courage is and upholds it as a central virtue for human happiness. In the preface to this book the author says he has chosen the characters of Plato and Socrates as they are interesting and important characters in philosophy and history. The personality of Socrates has become legendary. Yet the period of his greatest achievement coincided with work and life of other important philosophers. This book tells about important leaders of thought from the Socrates circles: Xenophon, Kriton, Protagoras, Parmenides, Menon, and others. It may be used as a supplementary source for learning philosophy and for individual research on the history of philosophy. According to the author, this book is a sequel and supplement to his major opus *The History of Greece* — *Greek Thinkers: book IV. Socrates and the Socratics. book V.
