matter is surrounded by conditions over which few of us have any control certainly we can develop a point of view and do some organized thinking which might come to a practical end It is with that in mind that we now announce the project we have called The Case Study House Program The magazine has undertaken to supply an answer insofar as it is possible to correlate the facts and point them in the direction of an end result We are within the limits of uncontrollable factors proposing to begin immediately the study planning actual design and construction of eight houses each to fulfil the specifications of a special living problem in the Southern California area Eight nationally known architects chosen not only for their obvious talents but for their ability to evaluate realistically housing in terms of need have been commissioned to take a plot of God's green earth and create good living conditions for eight American families They will be free to choose or reject on a merit basis the products of national manufacturers offering either old or new materials considered best for the purpose by each architect in his attempt to create contemporary dwelling units We are quite aware that the meaning of contemporary changes by the minute and it is conceivable that each architect might wish to change his idea or a part of his idea when time for actual building arrives In that case he will within reason be permitted to do so Incidentally the eight men have been chosen for among other things reasonableness which they have consistently maintained at a very high level

Mapping the Case Study Houses, 2021 In this paper I detail the process of creating a book titled *The Case Study Houses A Field Guide* a project meant to fill a gap in the scholarship on the Case Study Houses one of the most influential architectural programs of the 20th century I provide an overview of existing scholarship on the program in addition to its shortcomings and how my project addresses these by translating that body of work into an approachable modern yet no less informational format My research process involved concatenating various informational sources into one cohesive whole that provides a standardized presentation of facts about the numerous architecturally significant structures that the program spawned and leveraging Arts Architecture magazine's superb photography to bridge the gap between the enthusiast audience of sixty years ago and the enthusiast audience of today
