Confini Borders:

Borders and the Politics of Space in Late Medieval Italy Luca Zenobi, 2023 Space matters It situates our history structures our daily lives and often determines what we can and cannot do Borders are central to this reality This book explores how borders were understood made and encountered at the end of the Middle Ages and what they can tell us about the spatial fabric of society at the threshold of modernity Borderlands and Liminal Subjects Jessica Elbert Decker, Dylan Winchock, 2017-11-15 Borders are essentially imaginary structures but their effects are very real This volume explores both geopolitical and conceptual borders through an interdisciplinary lens bridging the disciplines of philosophy and literature With contributions from scholars around the world this collection closely examines the concepts of race nationality gender and sexuality in order to reveal the paradoxical ambiguities inherent in these seemingly solid binary oppositions while critiquing structures of power that produce and police these borders As a political paradigm liminality may be embraced by marginal subjects and communities further blurring the boundaries between oppressive distinctions and categories

Chianti Classico Bill Nesto, Frances Di Savino, 2016-09-20 This book tells the story of the ancient land named Chianti and the modern wine appellation known as Chianti Classico In 1716 Tuscany's penultimate Medici ruler Cosimo III anointed the region of Chianti along with three smaller areas in the Florentine State as the world's first legal appellations of origin for wine In the succeeding centuries this milestone was all but forgotten By the late nineteenth century the name Chianti rather than signifying this historic region and its celebrated wine identified a simple Italian red table wine in a straw covered flask In the twenty first century Chianti Classico emerged as one of Italy's most dynamic and fashionable wine zones Chianti Classico relates the fascinating evolution of Chianti as a wine region and reveals its geographic and cultural complexity Bill Nesto MW and Frances Di Savino explore the townships of Chianti Classico and introduce readers to the modern day winegrowers who are helping to transform the region The secrets of Sangiovese the principal vine variety of Chianti are also revealed as the book unlocks the myths and mysteries of one of Italy's most storied wine regions The publication of Chianti Classico coincides with the three hundredth anniversary of the Medici decree delimiting the region of Chianti on September 24 1716 **Annuario della Scuola Archeologica di Atene e delle Missioni Italiane in Oriente, Supplemento 16.**

State-Making in an Age of Revolution, 1830-1880 Christos Aliprantis, Anna Ross, 2025-07-02 How did states expand in the mid nineteenth century While scholars now associate the period after the 1848 revolutions with a striking increase in state activity few have demonstrated how new state building measures were put into practice From France to Hungary and Scandinavia to Spain State Making in An Age of Revolution shows how officials went about implementing reform With original contributions grounded in extensive archival research this volume casts light on the scale at which officials relied on elites professionals and technical experts both inside and outside of government and even from outside their own states to carry out their expanding work Together these findings help us to re think the reach and nature of growing states during these pivotal decades of change
