**Night Hunters** William Pace Head,2014-03-18 In *Night Hunters* air power historian William P Head provides the first detailed study of the development and deployment of the AC 130 gunship While other airframes and other types of close air support CAS and interdiction weapon systems preceded or flew with the AC 130s this four engine cargo airframe proved to be not only the longest serving fixed wing gunship but also the most effective by far During the Vietnam War the US military developed new tactics and weapons systems to counter a diversity of enemy tactics and geographic features the difficult climate and the shifting diplomatic context One of the most important was the development of the AC 130 Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam era fixed wing gunship and the only one that continues to fly missions in the twenty first century In addition it employed many of the most advanced weapons sensors targeting devices and fire control systems of the 1970s or of any era By recounting both the technical development and the combat operations of the plane and by looking at the proposed alternatives for its use in the War on Terror *Night Hunters* offers a clear view of the role of gunships and of close air support in US wars In today s never ending brushfire wars the AC 130s continue to uphold their reputation for excellence

**Air Defence Artillery in Combat, 1972 to the Present** Mandeep Singh,2020-11-23 It covers chapter by chapter the anti air battle in wars from Yom Kippur 1973 onwards a readable well researched and well presented book Army Rumour Service ARRSE Anti aircraft artillery truly came into prominence during the Second World War shooting down more aircraft than any other weapon and seriously affecting the conduct of air operations Development continued into the Cold War resulting in the extensive introduction of surface to air missiles or

SAMs Though the first combat success of such weapons was during the Vietnam War when a Soviet designed S 75 Dvina missile shot down a USAF F 4C Phantom on 24 July 1965 it was the Yom Kippur War of 1973 which brought surface to air missiles to the center stage During this short but bitter conflict Egyptian and Syrian air defenses shot down nearly fifty Israeli aircraft in the first three days alone almost a fourth of Israel's entire combat aircraft fleet In all Israel lost 104 aircraft during the war and for the first time more aircraft were lost to SAMs than any other cause The age of surface to air missiles had dawned In this unique examination the author details the development of not just surface to air missiles but all anti aircraft artillery since 1972 The part that such equipment played in all of the major conflicts since then is explored including the Soviet Afghan War the Falklands War in which Rapier was deployed the conflict in Lebanon Kosovo and Bosnia the Gulf War Operation Desert Storm in 1991 and Operation Iraqi Freedom in 1993 The investigation is brought right up to date by a study of the weapons tactics and engagements seen in the conflicts in Syria and Yemen

**Decker's War: Book 1-3** Eric Thomson, 2021-06-26 The dream of a stable democratic human Commonwealth has been dying for years Politicians financiers and spies vie for supremacy power and wealth in pursuit of a nightmarish vision that can have only one outcome the creation of a repressive interstellar empire All that stands between them and their goal is a small band of determined Fleet operatives working in the shadows Drawn into the struggle against his will former Marine Pathfinder Zack Decker soon realizes he must choose sides and join those fighting off the growing darkness but at great personal cost However try as they might the double crossing humans deadly aliens cruel pirates and merciless slavers he must battle cannot keep Decker from extracting his revenge especially after his beloved Corps recalls him to active duty as a Marine He takes no prisoners and pulls no punches because his growing list of enemies has forced him to accept that this is also Decker's War And it is a fight to the death Unfortunately for his foes they always seem to forget that he is still one of the Few This omnibus edition includes the first three Decker's War novels which have been published separately They are Death Comes But Once Decker's War Book 1 Cold Comfort Decker's War Book 2 Fatal Blade Decker's War Book 3 'Alone on a Wide, Wide Sea' E.E. Leonard, 1994 Crommelin's Thunderbirds led by the much admired navy fighter pilot Charles Crommelin were involved in the first carrier

air strikes in Japan and the worst of the kamikaze attacks off Iwo Jima and Okinawa Here two pilots from the group officially known as Air Group 12 chronicle their operations off the USS Randolph in the last stages of the Pacific war Given the paucity of good World War II naval aviation histories this book makes an important contribution to the field while at the same time offering a thoroughly enjoyable reading experience The authors examine the activities of the entire group fighters dive bombers and torpedo bombers enlisted men and officers pilots and aircrewmen as well as the shipboard personnel who kept them flying They follow the group from its formation in 1944 through the fire storms of kamikaze attacks in early to mid 1945 Official records reports and histories form the framework but the focus of the book is personal narratives by participants some forty firsthand accounts in all including two airmen s descriptions of their capture and internment by the Japanese and accounts of incredible rescues of downed pilots and crewmen More than fifty photographs some by Tony Remkus the navy photographer for Air Group 12 add to the sense of immediacy that the narrative conveys
