Annual Session of the Baptist Congress for the Discussion of Current Questions, Held at ... ,1887 *American Phrenological Journal and Life Illustrated* ,1879 **The Imagined Conflict** Sverre Holm,2025-11-21 Of course there is a conflict between science and God many say and they do not even bother to ask for justification This myth based view is dominant in our culture Sverre Holm regularly encounters attitudes that reflect such a perception which is based more on opinion than on fact This has inspired him to embark on the exciting task of elucidating how classical Christian faith with a little effort can go together with science The result is an educational and engaging book for anyone interested in science its history and philosophy Science is strangely vague when faced with the question of human consciousness and calls the origin of its most prominent characteristic the ability to speak a mystery Nevertheless there is no lack of certainty about how evolution can explain everything about human nature Are we approaching the limits of what science can explain here

works of Charles Gillispie one of the field's founders Kansas City Review of Science and Industry, 1880 **Evangelicals and the Philosophy of Science** Stuart Mathieson, 2020-11-29 This book investigates the debates around religion and science at the influential Victoria Institute Founded in London in 1865 and largely drawn from the evangelical wing of the Church of England it had as its prime objective the defence of the great truths revealed in Holy Scripture from the opposition of science falsely so called The conflict for them was not between science and religion directly but what exactly constituted true science Chapters cover the Victoria Institute's formation its heyday in the late nineteenth century and its decline in the years following the First World War They show that at stake was more than any particular theory rather it was an entire worldview combining theology epistemology and philosophy of science Therefore instead of simply offering a survey of religious responses to evolutionary theory this study demonstrates the complex relationship between science evangelical religion and society in the years after Darwin's Origin of Species It also offers some insight as to why conservative evangelicals did not display the militancy of some American fundamentalists with whom they shared so many of their intellectual commitments Filling in a significant gap in the literature around modern attitudes to religion and science this book will be of keen interest to scholars of Religious Studies the History of Religion and Science and Religion **Herald of Gospel Liberty** Elias Smith, 1918 ... **Select Notes on the International Sunday School Lessons ...**, 1879 *Select Notes on the International Sabbath School Lessons* Francis Nathan Peloubet, 1880
