Figure in Egyptian Prose Literature Yona Sheffer,2018-05-15 The Individual and the Authority Figure in Egyptian Prose Literature explores and analyses political conflicts between individuals and authority figures as those conflicts are depicted in thirteen Egyptian novels written from 1957 to the last years of Mubarak s presidency The book discusses the various reasons that lead an individual or a group of people from all strata of society common people intellectuals and public figures to confront policemen senior security officials and even the heads of the state It further examines how the conflicts develop and what their outcomes are in the short term as well as in the long term for both the individuals and the authority figures In this context the volume also examines the possibility of standing against an oppressive regime and even overcoming it This text argues that while the authority figure initially subdues individuals who confront them their victory is short term In the long term their cruelties bring about sown deaths either by the individuals themselves or by their relatives Furthermore large assemblies of people can confront the regime with success These discoveries along with other findings presented in the book remain relevant to the reality in the Middle East and the events leading to the Arab Spring The Weekly Reporter ,1903

Echoes from the Rocky Mountains John Wesley Clappitt,1888 **Cases on Constitutional Law** James Bradley Thayer,1895 **Building a New Yemen** Amat Al Alim Alsoswa,Noel Brehony,2021-08-12 Yemen has faced continuing crises since 2010 The fighting and divisions have destroyed much of Yemen s physical political and social infrastructure undermining its tribal traditions and religious tolerance and impoverishing the country The outbreak of war in 2015 caused the world s worst humanitarian crisis In this book Yemeni and international experts assess what political arrangements are required to overcome fragmentation and discord in Yemen They look to understand how people from all parts of the county can work together to build a new Yemen one that will give a voice to its young population and provide a full role for women

The contributors argue that Yemen's major resource is its population but that Yemenis need to be motivated and trained to give them the skills to rebuild the economy and to prepare for long term challenges such as water shortages and climate change. The volume also discusses how the international community will need to absorb the lessons of the past to find better ways of creating the institutions, mechanisms and transparency with Yemenis that will enable the flow of vital assistance to where it is most needed. The book provides an up to date analysis to help governments and international agencies who will have to work with Yemen and its neighbours in the post conflict situation.
