## **Conflicts In Feminism:**

Conflicts in Feminism Marianne Hirsch, Evelyn Fox Keller, 2015-10-15 Conflicts in Feminism proposes new strategies for negotiating and practicing conflict in feminism. Noted scholars and writers examine the most critically divisive issues within feminism today with sensitivity to all sides of the debates. By analyzing how the debates have worked for and against feminism and by promoting dialogue across a variety of contexts, these provocative essays explore the roots of divisiveness while articulating new models for a productive discourse of difference.

**Feminism and the New Right** Pamela Johnston Conover, Virginia Gray, 1983-05-01

**Common Differences** Gloria I. Joseph, Jill Lewis, 1986 An unprecedented analysis of an alarming schism in the women's movement: the differences between black and white women's perspectives, attitudes, and concerns. It presents an overview of women's status through history and discusses the vital issues where common differences occur: sexuality, men and marriage, mothers and daughters, media images, and the direction of the movement itself.

*Gender Conflicts* Franca Iacovetta, Mariana Valverde, 1992-01-01 In the early 1970s when women's history began to claim attention as an emerging discipline in North American universities, it was dominated by a middle class Anglo-Saxon bias. Today the field is much more diverse, a development reflected in the scope of this volume. Rather than documenting the experiences of women solely in a framework of gender analysis, its authors recognize the interaction of race, class, and gender as central in shaping women's lives and men's. These essays represent an exciting breakthrough in women's studies, expanding the borders of the discipline while breaking down barriers between mainstream and women's history.

**Feminism and War** Robin L. Riley, Chandra Talpade Mohanty, Minnie Bruce Pratt, 2009-04-15 Women across the globe are being dramatically affected by war as currently waged by the USA. But there has been little public space for dialogue about the complex relationship between feminism, women, and war. The editors of *Feminism and War* have brought together a diverse set of leading theorists and activists who examine the questions raised by ongoing American military initiatives: such as: What are the implications of an imperial nation-state laying claim to women's liberation? What is the relation between this claim and resulting American foreign policy and military action? Did American intervention and invasion in fact result in liberation for women in Afghanistan and Iraq? What multiple concepts are embedded in the phrase "women's liberation"? How are these connected to the specifics of religion, culture, history, economics, and nation within current conflicts? What is the relation between the lives of Afghan and Iraqi women before and after invasion, and that of women living in the US? How do women who define themselves as feminists resist or acquiesce to this nation-state claim in current theory and organizing? *Feminism and War* reveals and critically analyzes the complicated ways in which America uses gender, race, class, nationalism, imperialism to justify legitimate and continue war. Each chapter builds on the next to develop an anti-racist feminist politics that places imperialist power and forms of resistance to it central to its comprehensive analysis.

The Political Economy of Conflict and Violence against

Women Kumudini Samuel, Claire Slatter, Vagisha Gunasekara, 2019-08-15 *The Political Economy of Conflict and Violence against Women* shows how political economic social and ideological processes intersect to shape conflict related gender based violence against women Through feminist interrogations of the politics of economies struggles for political power and the gender order this collection reveals how sexual orders and regimes are linked to spaces of production Crucially it argues that these spaces are themselves firmly anchored in overlapping patriarchies which are sustained and reproduced during and after war through violence that is physical as well as structural Through an analysis of legal regimes and structures of social arrangements this book frames militarization as a political economic dynamic developing a radical critique of liberal peace building and peace making that does not challenge patriarchy or modes of production and accumulation *Minorities and the Making of Postcolonial States in International Law* Mohammad Shahabuddin, 2021-06-10 The ideological function of the postcolonial national liberal and developmental state inflicts various forms of marginalisation on minorities but simultaneously justifies oppression in the name of national unity equality and non discrimination and economic development International law plays a central role in the ideological making of the postcolonial state in relation to postcolonial boundaries the liberal individualist architecture of rights and the neoliberal economic vision of development In this process international law subjugates minority interests and in turn aggravates the problem of ethno nationalism Analysing the geneses of ethno nationalism in postcolonial states Mohammad Shahabuddin substantiates these arguments with in depth case studies on the Rohingya and the hill people of the Chittagong Hill Tracts against the historical backdrop of the minority question in Indian nationalist and constitutional discourse Shahabuddin also proposes alternative international law frameworks for minorities

**Third Wave Feminism** S. Gillis, G. Howie, R. Munford, 2004-07-31 This revised and expanded edition new in paperback provides a definitive collection on the current period in feminism known by many as the third wave Three sections genealogies and generations locales and locations politics and popular culture interrogate the wave metaphor and through questioning the generational account of feminism indicate possible future trajectories for the feminist movement New to this edition are an interview with Luce Irigaray a foreword by Imelda Whelehan as well as newly commissioned chapters

Marginal Groups and Mainstream American Culture Yolanda Estes, 2000 They are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society Countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups Most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders Taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals Multidisciplinary and multicultural Identity on the Margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative Christians

and the physically and mentally disabled And because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays From problems posed by complimentary racism to the status of gays in Tony Blair s England from the struggle of Native Americans to preserve their identities to the singular problems of single mothers Identity on the Margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society In all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects Bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences It offers a basis for enhancing our understanding of this process and for working toward meaningful social change

*Feminist Peace and the Violence of Communalism* Emanuela Mangiarotti,2024-07-22 This book examines how narratives of communal conflicts in south India affect Muslims women and the lower castes entrenching complex realities of marginalisation and violence Through extensive empirical research it traces a thread connecting the history of communalism in the south Indian city of Hyderabad with the reality of everyday life in so called riot prone neighbourhoods The chapters move between political discourse and daily life bringing attention to how minority voices navigate and mould the space of interfaith relations and community belonging and emphasising their political significance within a context dominated by narratives of communal conflicts The book concludes with a reflection on the entanglements of dominant conflict paradigms and the lived experience of marginality across multiple axes of difference positioning this interplay as crucial for understanding the multiple dimensions of political violence in contemporary societies This book will be of much interest to students of feminist peace research political violence Asian studies and International Relations

*Sites of Violence* Wenona Giles,Jennifer Hyndman,2004-06-28 In conflict zones from Iraq and Afghanistan to Guatemala and Somalia the rules of war are changing dramatically Distinctions between battlefield and home soldier and civilian state security and domestic security are breaking down In this especially timely book a powerful group of international authors doing feminist research brings the highly gendered and racialized dimensions of these changes into sharp relief In essays on nationalism the political economy of conflict and the politics of asylum they investigate what happens when the body household nation state and economy become sites at which violence is invoked against people In particular these hard hitting essays move us forward in our understanding of violence against women how it is perpetrated survived and resisted They explore the gendered politics of ethno nationalism in Sri Lanka the post Yugoslav states and Israel and Palestine They consider honor killings in Iraqi Kurdistan armed conflict in the Sudan and geographies of violence in Ghana This volume augments feminist analysis on conflict zones and contributes to transnational coalition building and feminist organizing

*Gender and the Israeli-Palestinian Conflict* Simona Sharoni,1994-12-31 Simona Sharoni s innovative approach to the conflict in the Middle

East stresses the relationship between gender and politics by illuminating the daily experiences of women in Israel and in the occupied West Bank and Gaza Strip Among the issues explored are the connections between the violence of the conflict and the escalation of violence against women the link between militarism and sexism and the role of nationalism in building individual and collective identities Sharoni also shows the impact of Intifada the Palestinian uprising in December 1987 on the Palestinian and Israeli women s movements While women s coalitions such as these are critical subjects in and of themselves the actions of marginalized women are rarely if ever given serious treatment in the study of international relations With this book Sharoni creates an aperture for the emergence of new perspectives and alternative methods in the development of a new vision in global politics and gender equality The interdisciplinary scope of the book will make it valuable to scholars of political science women s studies conflict resolution and Middle East studies

*Essentialism as a Grand Unifying Theory* Rebecca Boone,1992-01-01

*Sex, Power, Conflict* David M. Buss,Neil Malamuth,1996-04-11 Sexual harassment in the workplace date rape and domestic violence dominate the headlines and have recently sparked scholarly debates about the nature of the sexes Concurrently the scientific community is conducting research in topics of sex and gender issues Indeed more research is being done on the topics of sexual conflict and coercion than at any other time in the history of the social sciences Despite this attention it is clear that these issues are being addressed from two essentially different perspectives one is labeled feminist while the other viewed as antithetical to the feminist movement is called evolutionary psychology which emphasizes the history of reproductive strategies in understanding conflict between the sexes This book brings together leading experts from both sides of the debate in order to discover how each could offer insights lacking in the other The editors overall goal is to show how the feminist and evolutionary approaches are complementary despite their evident differences then provide an integration and synthesis In fact several of the contributors to this unique volume consider themselves advocates of both approaches As a stimulating presentation of the dynamics of sex power and conflict and a pioneering rapprochement of the diverse tendencies within the scientific community this book will attract a wide audience in both psychology and women s studies fields

**Gendering Global Conflict** Laura Sjoberg,2013-08-13

Laura Sjoberg positions gender and gender subordination as key factors in the making and fighting of global conflict Through the lens ofgender she examines the meaning causes practices and experiences of war building a more inclusive approach to the analysis of violent conflict between states Considering war at the international state substate and individual levels Sjoberg s feminist perspective elevates a number of causal variables in war decision making These include structural gender inequality cycles of gendered violence state masculine posturing the often overlooked role of emotion in political interactions gendered understandings of power and states mistaken perception of their own autonomy and unitary nature Gendering Global Conflict also calls attention to understudied spaces that can be sites of war such as the workplace the household and even the bedroom Her findings show gender to be a linchpin of even the most tedious and seemingly bland tactical and

logistical decisions in violent conflict Armed with that information Sjoberg undertakes the task of redefining and reintroducing critical readings of war s political economic and humanitarian dimensions developing the beginnings of a feminist theory of war

**Knowing Feminisms** Liz Stanley,1997-03-10 Knowing Feminisms looks at feminism as a vital source of new knowledge and new ways of working throughout a range of disciplines It also scrutinizes the sometimes highly problematic forms its presence within academia can take The contributors all well known feminist academics discuss the epistemological and ontological borderlands that feminisms inhabit which although within still remain other to the academy The book addresses fundamentally important questions such as Should feminists work within traditional disciplines or abandon them in favour of Women s Studies Is the idea of feminist pedagogy as empowerment actually one which de skills Does the feminist transformation of some academic disciplines signify that these are no longer significant sites of knowledge and or power Do the essential organizational features of disciplines and institutions depend upon repressive means or is it possible to transform these according to feminist principles Are some disciplines and types of institutions particularly resistant to feminist ideas Is an intellectual home for feminism ever possible or desirable within academia or is critical thinking best done from the margins Can Women s Studies as an organizational presence within the university encompass dissenting positions on these foundational questions or will it contain and control what can be said and by whom

Women's Studies Students and the Politics of Empowerment Katherine Rhoades,1996 **Feminisms in the Academy** Domna C. Stanton,Abigail J. Stewart,1995 Perspectives on the profound impact of feminist scholarship on the major academic disciplines
