Confessional Mobility and English Catholics in Counter-Reformation Europe Liesbeth Corens, 2019 In the wake of England's break with Rome and gradual reformation English Catholics took root outside of the country in Catholic countries across Europe *Confessional Mobility* explores their arrival and the foundation of convents and colleges on the Continent as well as their impact beyond that initial moment of change

Trust in the Catholic Reformation Thérèse Peeters, 2022-06-08 In *Trust in the Catholic Reformation* Thérèse Peeters shows how trust and distrust affected reform attempts in the post-Tridentine Church while offering a multifaceted account of day-to-day religiosity in seventeenth-century Genoa, a city that has largely been overlooked in Anglophone scholarship The book addresses diverse aspects of early modern Catholicism among lay people and members of the clergy The author replaces the traditional view of the Catholic Reformation as a top-down process with one that considers individual agency highlighting how strategies for gaining and maintaining trust as well as the processes by which trust could be lost or denied determined the success or failure of various efforts at reforming the Church

Sacred Journeys in the Counter-Reformation Elizabeth C. Tingle, 2020-06-08 *Sacred Journeys in the Counter-Reformation* examines long-distance pilgrimages to ancient international shrines in northwestern Europe in the two centuries after Luther In this region in the sixteenth and seventeenth centuries saints' cults and pilgrimage were frequently contested more so than in the Mediterranean world France, the Low Countries, and the British Isles were places of disputation and hostility between Protestant and Catholic sacred landscapes and journeys came under attack and in some regions were outlawed by the state Taking as case studies hugely popular medieval shrines such as Compostela, the Mont Saint Michel, and Lough Derg, the impact of Protestant criticism and Catholic revival on shrines, pilgrims' motives, and experiences is examined through life writings, devotional works, and institutional records The central focus is that of agency in religious change: what drove spiritual reform and what were its consequences for the ordinary Catholic This is explored through concepts of the religious self, holy materiality, and sacred space

Confraternities & Catholic Reform in Italy, France, & Spain John Patrick Donnelly, Michael W. Maher, 1999 Twelve contributions discuss early relatives of St. Vincent DePaul and the Knights of Columbus during the Catholic and Counter-Reformation, 1500 to 1650 Topics include confraternities in the context of Italian Catholic Reform, Italian youth confraternities, Jesuits and their promotion of communion, public charity, lay religiosity in Mantua, and confraternities as a venue for female activism Annotation copyrighted by Book News Inc, Portland, OR

[Reformation and the Practice of Toleration](#) Benjamin J. Kaplan, 2019-09-16 The Dutch Republic was the most religiously diverse land in early modern Europe, gaining an international reputation for toleration In *Reformation and the Practice of Toleration* Benjamin Kaplan explains why the Protestant Reformation had this outcome in the Netherlands and how people of different faiths managed subsequently to live together peacefully Bringing together fourteen essays by the author, the book examines the opposition of so-called Libertines to the aspirations of Calvinist reformers for

uniformity and discipline It analyzes the practical arrangements by which multiple religious groups were accommodated It traces the dynamics of religious life in Utrecht and other mixed communities And it explores the relationships that developed between people of different faiths especially in mixed marriages [A/AS Level History for AQA The Reformation in Europe, c1500-1564 Student Book](#) Max von Habsburg,2015-12-03 A new series of bespoke full coverage resources developed for the AQA 2015 A AS Level History Written for the AQA A AS Level History specifications for first teaching from 2015 this print Student Book covers The Reformation in Europe c1500 1564 Depth component Completely matched to the new AQA specification this full colour Student Book provides valuable background information to contextualise the period of study Supporting students in developing their critical thinking research and written communication skills it also encourages them to make links between different time periods topics and historical themes **Italian Confraternities in the Sixteenth Century** Christopher F. Black,2003-08-28 Confraternities were and are religious brotherhoods for lay people to promote their religious life in common Though designed to prepare for the afterlife they were fully involved in the social political and cultural life of the community and could affect all men and women as members or as the recipients of charity Confraternities organised a great range of devotional cultural and indeed artistic activities in addition to other functions such as the provision of dowries and the escort of condemned men to the scaffold Other works have studied the local activities of specific confraternities but this is the first to attempt a broad survey of such organisations across the breadth of early modern Italy Christopher Black demonstrates clearly the extent diversity and influence of confraternal behaviour and shows how such brotherhoods adapted to the religious and social crises of the sixteenth century thus illuminating current debates about Catholic Reform the Counter Reformation poverty philanthropy and social control **List of Theological Subject Headings** Union Theological Seminary (New York, N.Y.).
