Hau,2022-11-14 The contributors to Siting Postcoloniality reevaluate the notion of the postcolonial by focusing on the Sinosphere the region of East and Southeast Asia that has been significantly shaped by relations with China throughout history Pointing out that the history of imperialism in China and Southeast Asia is longer and more complex than Euro American imperialism the contributors complicate the traditional postcolonial binaries of center periphery colonizer colonized and developed developing Among other topics they examine socialist China s attempts to break with Soviet cultural hegemony the postcoloniality of Taiwan as it negotiates the legacy of Japanese colonial rule Southeast Asian and South Asian diasporic experiences of colonialism and Hong Kong s complex colonial experiences under the British the Japanese and mainland China The contributors show how postcolonial theory s central concepts cannot adequately explain colonialism in the Sinosphere Challenging fundamental axioms of postcolonial studies this volume forcefully suggests that postcolonial theory needs to be rethought Contributors Pheng Cheah

Conflict and Compromise Herbert R. Winter,Thomas J. Bellows,1992 This systematic text is helps students organize and comprehend the study of politics **Picking the Bones** Geoffrey Regan,2004 While politicians seek evidence of nuclear chemical or biological weapons in Iraq they overlook the fact that in human history war itself has always been the greatest weapon of mass destruction Its tools whether machine guns bombs or missiles of one form or another are merely variations on a theme The atomic bomb in Hiroshima killed as many as 100 000 civilians in a matter of seconds while the British naval blockade of Germany between 1914 and 1919 killed 1 000 000 Germans by slow degrees Since the terrorist strikes of 11 September history its methodology terminology and its particular concern with objective truth have been damaged the language of historians subverted by politicians and the media the past pillaged for examples to support modern political agendas Picking the Bones strikes back in an attempt to restore the integrity of historical studies by demonstrating that the future is never merely a reworking of the past Regan explores the drawbacks of demonising and glorifying historical characters for political purposes Hitler is always the architect of the Holocaust and never the successor of Bismarck and Churchill the man of Britain s finest hour never the leader who planned to use anthrax on German cities in 1944 Mythologising history has become a tactic of unscrupulous politicians along with disinformation and a new misleading

rhetoric used to describe war and liberation How should we really define weapons of mass destruction are they elusive biological and chemical devices still being hunted months after the supposed end of a victorious war against Saddam Hussein or are they the UN sanctions which inflicted death on 500 000 children under five in Iraq **Book Review Index** ,1987 Every 3rd issue is a quarterly cumulation **Consensus and Conflict in African Societies** Margaret Peil,1977
