Cosmopolitanism and the Evils of the World Michael H. DeArme, 2020-05-28 This book analyses five forms of transnational evils and offers cosmopolitan recommendations for reducing their occurrence With civilisation in crisis it is crucial now more than ever to attempt to mitigate the catastrophes that face us in the decades to come In a compelling and frightening account of transnational evil DeArme identifies and explores in depth the dark side of human behaviour from genocide slavery torture and terrorism to the greatest disaster of our time the worldwide destruction of the earth's biosphere Building on Kant's theory of a new world organisation designed to eliminate the evil of war and strengthen the world community DeArme develops a biotic and value based theory of dignity reconstructing a cosmopolitan world order

that supports the Kantian theories of respect care and hospitality Cosmopolitan changes to the United Nations are proposed including a bicameral assembly and crucially an environmental council with legal powers In each chapter cosmopolitan recommendations are made that will reduce the occurrence of the transnational evil in question it is through these recommendations that the dignity and world citizenship of humanity can be protected and strengthened Without them we are headed towards the collapse of civilisation and mass extinction in the biosphere *Jonathan Edwards: Allan G. and the varied ways in which states and grassroots collectives respond to and transform this violence through memory practices and grassroots activism By calling upon lessons from Germany Poland Argentina and the Indigenous United States Resonant Violence demonstrates how ordinary individuals come together to engage with a violent past to pave the way for a less violent future
