[Mask Off: Stop People-Pleasing & Be Yourself](#) Selene Rothwell, 2026-02-11 This book explores the hidden psychology of people pleasing not as kindness or generosity but as a survival strategy rooted in the fear of rejection conflict or abandonment It examines why saying no feels impossible even when yes is breaking you and what this pattern reveals about early experiences where your needs weren t safe to express Rather than treating people pleasing as a bad habit to break this book reframes it as an adaptive response that once protected you but now prevents genuine connection It investigates the difference between authentic generosity and compulsive accommodation the role of childhood conditioning in shaping these patterns and why you might fear other people s disappointment more than your own exhaustion It explores how people pleasing creates relationships built on performance rather than presence and why dropping the mask can initially

feel like losing your identity Through compassionate inquiry the book navigates the terror of being disliked the guilt that accompanies setting boundaries and the grief of recognizing how long you've been invisible to yourself It offers insight into what happens when you stop managing other people's emotions when you allow discomfort instead of rushing to fix it and how to discern between connection that requires your silence and relationships that can hold your truth This is an invitation to examine the cost of constant accommodation not through self-criticism but through honest reflection on what you've sacrificed to be acceptable and what becomes possible when you risk being real instead of being liked

The Shadow Storage Jordan Barnes, Everything we refuse to feel doesn't disappear it moves into shadow storage The Shadow Storage illuminates the dark corners of our identity and shows how these hidden forces drive our daily lives our relationships and our professional success We deconstruct the myth that negativity can simply be pushed away Learn the mechanics of emotional repression and find out why your greatest fears often hide your greatest potentials This book is an invitation to integration We show you how to make peace with your shadows and use the energy bound within them for your goals It is not an easy path but it is the only path to wholeness We examine case studies of people who achieved unprecedented sovereignty by accepting their shadows Learn how to recognize and dissolve projections to lead clearer relationships Become the master of your subconscious This book provides sound psychological insights paired with practical exercises for self-knowledge Step out of the shadow into your full light

Race and Social Policy Sandra Edmonds Crewe, 2022-11-10 Social policy is not blind It has been at the forefront of perpetuating structural inequality in many of the systems charged with serving and protecting The impact of race on social policy is linked to historical intended and unintended patterns of discrimination that have resulted in disparate impact for many across their life course This book uses critical race theory to examine key social policies The chapters give primacy to addressing the experiences of African Americans in navigating systems that are flawed by structural racism and yet too often attribute individual pathology rather than systemic injustice to the worsening life circumstances they find themselves in Using scholarship personal and professional experiences the contributors offer valuable insight on differential treatment and the resulting missed opportunities to address historical barriers that if not addressed will continue the cycle of harm for marginalized members in society The Covid-19 pandemic along with the loss of Black lives through carceral injustices have amplified the national discourse about race and social policy Additionally critical race theory has been championed by many as a framework for understanding the structural inequalities that plague our nation Others have assailed the theory as promoting hate guilt and divisiveness The contributors use critical race theory in combination with other theoretical frameworks to provide context for the persistent and pernicious injustices that have historically plagued society Their work offers context with the goal of policy changes aimed at eradicating systemic injustices

that negatively impact quality of life Race and Social Policy is a significant new contribution to understanding and addressing systemic and structural racism and it will be of interest to researchers and advanced students of social work politics public policy and sociology This book was originally published as a special issue of the journal Social Work in Public Health
