Congressional Quarterly Almanac 1981 Cq Almanac:

CQ Almanac, 1981 Congressional Quarterly, Inc. Staff, 1982-04 **Making Environmental Law** Nancy E. Marion, 2011-08-10 From Eisenhower to Obama this book provides a comprehensive analysis of the policies Congress and the president have proposed and passed to protect the environment over time The U S federal government first began to consider legislation to protect the environment and natural resources in 1940s Since that time Congress and the president have considered and passed numerous environmental policies laws that serve to protect the quality of the air we breathe the water we drink the natural beauty of the land and the animals that live both on land and in the water In *Making Environmental Law The Politics of Protecting the Earth* experienced and accomplished environmental law researcher Nancy E Marion shows what policies Congress have proposed and passed to protect the environment over time Each chapter focuses on the members of Congress s response to a different environmental concern such as ocean dumping pesticides and solid waste With green awareness now affecting every aspect of our modern world this text serves as an invaluable reference for students and researchers who need a deeper historical background on the political aspects of these issues *Reviewing Delegation* James H. Cox, 2004-04-30 Members of Congress often delegate power to bureaucratic experts but they fear losing permanent control of the policy One way Congress has dealt with this problem is to require reauthorization of the program or policy Cox argues that Congress uses this power selectively and is more likely to require reauthorization when policy is complex or they do not trust the executive branch By contrast reauthorization is less likely to be required when there are large disagreements about policy within Congress In the process Cox shows that committees are important independent actors in the legislative process and that committees with homogenous policy preferences may have an advantage in getting their bills through Congress *Cycles of Spin* Patrick Sellers, 2009-10-26 How do politicians try to shape their news coverage Sellers examines strategic communication campaigns in the U S Congress He argues that these campaigns create cycles of spin leaders create messages rank and file legislators decide whether to promote those messages journalists decide whether to cover the messages and any coverage feeds back to influence the policy process These four stages are closely related decisions at one stage influence those at another Sellers uses diverse evidence from participant observation and press secretary interviews to computerized content analysis and vector auto regression The result is a comprehensive and unprecedented examination of politicians promotional campaigns and journalists coverage of those campaigns Countering numerous critics of spin Sellers offers the provocative argument that the promotional messages have their origins in the actual policy preferences of members of Congress The campaigns to promote these messages thus can help the public learn about policy debates in Congress **God Wills it** David O'Connell, 2017-07-05 *God Wills It* is a comprehensive study of presidential religious rhetoric Using careful analysis of hundreds of transcripts David O Connell reveals the hidden strategy behind presidential religious speech He asks when and why religious language is used and when it is whether such language

is influential Case studies explore the religious arguments presidents have made to defend their decisions on issues like defense spending environmental protection and presidential scandals O Connell provides strong evidence that when religious rhetoric is used public opinion typically goes against the president the media reacts harshly to his words and Congress fails to do as he wants An experimental chapter casts even further doubt on the persuasiveness of religious rhetoric God Wills It shows that presidents do not talk this way because they want to Presidents like Jimmy Carter and George H W Bush were quite uncomfortable using faith to promote their agendas They did so because they felt they must God Wills It shows that even if presidents attempt to call on the deity the more important question remains Will God come when they do

Asian and Pacific Islander Americans in Congress, 1900-2017 Albin Kowalewski, 2017 **Congressional Quarterly Almanac 1981**, **Congressional Quarterly Weekly Report**, 1995 *Unfair Housing* Mara S. Sidney, 2003 It is difficult to ignore the fact that even as the United States becomes much more racially and ethnically diverse our neighborhoods remain largely segregated The 1968 Fair Housing Act and 1977 Community Reinvestment Act promised to end discrimination yet for millions of Americans housing options remain far removed from the American Dream Why do most neighborhoods in American cities continue to be racially divided The problem suggests Mara Sidney lies with the policies themselves She contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them In *Unfair Housing* she offers a new explanation for the persistent color lines in our cities by showing how weak national policy has silenced and splintered grassroots activists Sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated As a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued A former undercover investigator for a fair housing advocacy group Sidney takes readers into the neighborhoods of Minneapolis and Denver to show how federal housing policy actually works She examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy Sidney also shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics In the first book to apply policy design theories of Anne Schneider and Helen Ingram to an empirical case Sidney illuminates overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations Sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation As battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory

Congressional Quarterly's Guide to Congress Congressional Quarterly, inc, 1982 Describes the history of Congress and how it works today **The Social Safety Net Reexamined--FDR to**

Reagan Lyndon B. Johnson School of Public Affairs. Safety Net Reexamined Policy Research Project, 1989 Presidential Press Conferences Carolyn Smith, 1990-07-26 In this timely new book Carolyn Smith develops a methodology for the study and criticism of presidential press conferences Moving away from the traditional method of studying the presidential rhetoric of prepared speeches Smith proposes methods of criticism for the quasi spontaneous environment of the press conference where the control of messages is divided between the president and the press The book offers a detailed critical assessment of Ronald Reagan's relationship with reporters during his eight years in office From this assessment Smith develops her approach to press conference criticism She proposes the development of standards by which to judge good bad and indifferent press exchanges and focuses on the internal dynamics of press conferences as they now exist Noting that presidential press conference reform has been tried several times with a general lack of success Smith points out that these press conferences whatever their deficiencies are valuable records worth understanding The book explores the nature of the presidential press conference and the fundamental importance of the adversarial relationship between the president and the press Smith includes a valuable summary of the history of the adversarial press conference focusing on those aspects that have made the press conference an institution and an inherently adversarial public encounter She then puts forth an approach for criticism of the press conference accounting for both the president and the press Finally using her own approach Smith offers sample criticism of Ronald Reagan's press conferences and his relationship with reporters during his first 69 days in office Students and scholars of journalism rhetoric political science and communication will find Presidential Press Conferences valuable reading **The Interest Group Connection** Paul S. Moen, 1992 One Nation, Indivisible Citizens' Commission on Civil Rights (U.S.), 1989 These analyses by experts in law and public policy examine the

state of civil rights enforcement during the Reagan era They cover issues such as administration of justice education employment rights health housing language rights minority business development political rights rights of institutionalized persons and the rights of the disabled The authors conclude that the 1980s constituted a dramatic and unfortunate break with the longstanding Federal civil rights policies of post Republican and Democratic administrations and that a civil rights conscious Congress and independent judiciary and private groups have shouldered the burden of initiating civil rights enforcement action ISBN 0 9622865 0 8 pbk 15 00 **Journal of Mormon History** ,2000 Library Media Leadership in Academic Secondary Schools Pauline Anderson,1985
