A Multicultural Perspective on Marriage and Family Therapy Augustine Nwoye, 2025-10-03 This book is composed of two sections and nineteen chapters in all Section 1 encompasses the conceptual and theoretical foundations while Section 2 addresses key issues and problems with marriage and the family In Africa the complementary institutions of marriage and the family are greatly appreciated Accordingly students and scholars in psychology in African universities clamour for texts on marriage and family therapy that give recognition to those African values that have stood the test of time Given that most of the existing textbooks on marriage and family therapy are authored by our Eurowestern colleagues who know about and foster only the Eurowestern tradition on marriage and family practice it is considered timely that the present book be produced with the contents and message that could occupy the middle ground of the two traditions African and Western The book presents a valuable addition to the existing literature on marriage and family therapy tailored to suit the interests and needs of students and scholars in global Africa and the wider world

Psychotherapy with Families Sally J. Box, Beta Copley, Jeanne Magagna, Errica Moustaki, 2015-07-24 Originally published in 1981 this study is the outcome of a clinical workshop based in the Adolescent Department at the Tavistock Clinic its members at the time shared a tradition and interest in applying psychoanalytic principles to the understanding of groups and institutions and believed in the crucial relevance of these in work with families It is written with the general reader in mind as well as those who work specifically in the field of family therapy or psychoanalysis The approach is based on two particular developments that of Object Relations Psychoanalytic practice derived especially from the work of Freud and Melanie Klein and the application of this to the understanding of Group Relations following the work of W R Bion and others such as A K Rice and Pierre Turquet It thus embraces the idea of the family as a system and includes attempts to understand the processes involved in such a system But unlike other comparable approaches this one implies working with the group dynamics of the family especially in terms of the way the family members

perceive and engage the therapists The attempt is to create a space for the family to relive and think about conflicts as they emerge in the therapeutic setting Analytic theory is matched by much clinical material and a glossary defines the key concepts
