*Anne Carson* Elizabeth Sarah Coles, 2023 The scene with which I begin this chapter is the kind of scene that interests Carson In the words of her Essay on What I Think About Most 1999 a disquisition on mistake in stanzas of unrhyming verse the wilful creation of error is the action of the master contriver the poet what Aristotle would call an imitator of reality Like the true mistakes of poetry the matter Carson confesses to think about most Streb s choreographed falls perform the conversion of human error into an art form Under the dancer s regime and by an extraordinary coup of artifice the emotions of mistake shame exposure thrill are handed to us putting our own contradictions and odd longings centre stage **Poets & Writers** ,2001 *Bomb* ,2002 Journal of Southern African Studies 20th Anniversary Conference ,1994 **Unsolved Problems of Thiamine** ,1962 Mushrooms, Myth and Mithras Carl Ruck, 2021-02-24 This illustrated book traces the history of an unlikely force in the shaping of Western civilization the use of psychedelic mushrooms namely by a secret society called the cult of Mithras Nero was the first emperor to be initiated by the group s magical dinners and most of his successors embraced the ritual as a source of spiritual transcendence The cult was officially banned after the Conversion but aspects of their rituals were assimilated or co opted by Christianity and the brotherhoods persist today as secret societies such as the Freemasons This is a fascinating exploration of a powerful force kept behind the scenes for thousands of years

**Caligula** Anthony A. Barrett, 2015-03-05 The Roman Empire has always exercised a considerable fascination Among its numerous colourful personalities no emperor with the possible exception of Nero has attracted more popular attention than Caligula who has a reputation whether deserved or not as the quintessential mad and dangerous ruler The first edition of this book established itself as the standard study of Caligula It remains the only full length and detailed scholarly analysis in English of this emperor s reign and has been translated into a number of languages But the study of Classical antiquity is not a static phenomenon and scholars are engaged in a persistent quest to upgrade our knowledge and thinking about the ancient past In the thirty years since publication of the original Caligula there have been considerable scholarly advances in what we know about this emperor specifically and also about the general period in which he functioned while newly discovered inscriptions and major archaeological projects have necessitated a rethinking of many of our earlier conclusions about early imperial history This new edition constitutes a major revision and in places a major rewriting of the original text Maintaining the reader friendly structure and organisation of its predecessor it embodies the latest discoveries and the latest thinking seeking to make more lucid and comprehensible those aspects of the reign that are particularly daunting to the non specialist Like the original this revised Caligula is intended to satisfy the requirements of the scholarly community while appealing to a broad and general readership The Numismatic Circular and Catalogue of Coins, Tokens, Commemorative & War Medals, Books & Cabinets Spink & Son, 1916 **Dictionary Catalog of the Slavonic Collection** New York Public Library.
