Hurst, 2011-04-11 Drawing on critical frameworks this study establishes the centrality of language gender and community in the quest for identity in contemporary American fiction Close readings of novels by Alice Walker Ernest Gaines Ann Beattie John Updike Chang rae Lee and Rudolfo Anaya among others show how individuals find their American identities

Boomers 3.0 Lawrence R. Samuel, 2017-07-14 Capitalizing on what is arguably the most important social phenomenon of our time and place the aging of America this book shows organizations how to market specifically to baby boomers in their third act of life The graying of America is undeniable with an estimated 10 000 boomers turning 65 every day But to dismiss the baby boomer generation as a group no longer worth marketing to would be foolish According to the Census Bureau in 2029 the year when the last boomer will have turned 65 there will still be more than 61 million boomers roughly 17 percent of the projected population of the United States Boomers will still be the wealthiest generation in the United States until at least 2030 according to the Deloitte Center for Financial Services with their share of

net household wealth to peak at 50.2 percent by 2020. Boomers 3.0: Marketing to Baby Boomers in Their Third Act of Life describes how to market to baby boomers from a cultural perspective specifically addressing the demographic group of baby boomers in their later adulthood, a period that will continue for the next two to three decades. The author uses the term 3.0 to indicate the baby boomers' third phase of life and explains how this third act of life will differ from earlier periods; accordingly, organizations should take a different approach to marketing to them than in the past. This book offers a way to contextualize business objectives within a culturally based, forward-thinking framework that fully leverages the opportunities presented by what is perhaps the biggest and most affluent customer base in history. Readers will be able to use the strategies described to map territories to stake and mine in targeting boomers, create meaningful relationships with individuals in this group, and communicate effectively with boomers to offer them products and services.

It's a Sprawl World After All Douglas E. Morris, 2009-03-01. Suburbia has twisted the American dream into a nightmare. The United States now has the most rapes, assaults, murders, and serial killings per capita by a wide margin than any other first-world nation. It's a Sprawl World After All is the first book to link America's increase in violence and the corresponding breakdown in society with the post-World War II development of suburban sprawl. Without small towns to bring people together, the unplanned growth of sprawl has left Americans isolated, alienated, and afraid of the strangers that surround them. Suburbia has substituted cars for conversation, malls for main streets, and the artificial community of television for authentic social interaction. This has resulted in dramatically negative impacts on US society, including the transformation of America's community-oriented small-town sensibilities into an isolated society of strangers burdened by isolation, loneliness, and depression. The emergence of a culture of incivility characterized by extreme individualism and a callous disregard for others. Levels of violence so rampant as to be proclaimed epidemic by the Centers for Disease Control and Prevention (CDC). Advocating that urgent attention be paid to managing development by emulating the smart growth examples of European cities, the book's final section offers readers tools to rebuild community in their lives as well as in society at large. It offers practical solutions that can improve everyone's quality of life. Provocative and thoughtful, It's a Sprawl World After All also includes a helpful resource listing of organizations committed to making communities more sustainable. Douglas E. Morris is a freelance writer whose 14 years of experience living outside the United States in a number of safe urban areas has given him unique insights into cross-cultural urban comparisons. He has published numerous articles on the topic in the last seven years.

Intown Living Ann Breen, Dick Rigby, 2005-02-28. After decades of abandonment, cities across North America are experiencing a renaissance. A new generation is seeking greater excitement and diversity than the typical suburban subdivision offers, and many people are instead looking to make their homes in lively urban environments. In Intown Living, authors Ann Breen and Dick Rigby document this movement, arguing that if properly nurtured, it could help slow current patterns of sprawling development and help revitalize America's cities. They illustrate the many benefits of city living and offer strategies and encouragement for

public officials and private developers to team up and expand central city housing opportunities The authors present in depth studies of eight cities Atlanta Dallas Houston Memphis Minneapolis New Orleans Portland Oregon and Vancouver British Columbia that are experiencing this type of renaissance and consider common elements shared by the cities as well as their differences Intown Living is an important new resource for a wide audience of professionals involved with urban design and planning It will also be of interest to the many people concerned with historic preservation or smart growth and for students and researchers involved with urban studies and related fields

Sociology in Everyday Life David Allen Karp, William C. Yoels, Barbara Holcombe Vann, 2004 The Lover Philip Dunn, Manuela Dunn-Mascetti, 2003-05-13 A collection of fiction poetry essays and memoirs celebrates the power of love accompanied by numerous modern illustrations and photographs

Beyond Self-esteem Thomas J. Cottle, 2003 In *Beyond Self Esteem* Thomas J Cottle argues that America's preoccupation with notions of self esteem and self regard not only does not reflect the fundamental nature of the self but leads to selfish behavior and an inability to devote one's self to friendships The self Cottle writes is predicated on social relationships and more specifically on the affirmation each of us offers to the other as well as the degree of responsibility we find ourselves willing to take for one another It is Cottle's contention reinforced by his theoretical positions and by the narrative accounts of children and adults alike that affirmation of and the assumption of responsibility for other people remain the most ethical human actions

Frank, Richard J. Jackson, 2004-07-09 *Urban Sprawl and Public Health* offers a survey of the impact that the built environment can have on the health of the people who inhabit our cities The authors go on to suggest ways in which the design of cities could be improved have a positive impact on the well being of their citizens **International review of modern sociology**

, 2006 *7 Myths of Working Mothers* Suzanne Venker, 2004 Dispelling our most cherished myths about working mothers Suzanne Venker argues that women can never be successful in the workplace and at home simultaneously Women can achieve the balance they so desperately seek only by planning their careers around motherhood rather than planning motherhood around their careers Psychology and Education, 2007 **Choice**, 2003 The Publishers Weekly, 2001

Pilipinas, 2005 *A Dictionary of Nonprofit Terms and Concepts* David Horton Smith, Robert A. Stebbins, Michael A. Dover, 2006-11-08 This dictionary supplies some of the necessary foundational work on the road toward a general theory of the nonprofit sector
