*Education* ,1917 *Quixotism* ,2004-12-30 Quixotism explores how a group of Spanish intellectuals writing during the time of Restoration Spain 1876 1931 incorporated the figure of Don Quixote into an on going debate on Spanish national and imperial decadence and used this figure to promote a nationalistic and jingoistic formula for national imperial regeneration Commonly known as the Generation of 98 these writers turned Spain's military defeat at the hands of an emerging American empire into a moral victory Christopher Britt Arredondo uses the term Quixotism to denote a premodern heroic ideal centered on the figure of Don Quixote as he explores these writers Here he shows how Ganivet turns Quixote into a spiritual conquistador Unamuno into a tragic messiah Maeztu into a smiling priest and Ortega into a paternalistic master Quixotism is a new critical category of political and cultural relevance not only for fin de siècle Spain and the National Catholic Spain of the Franco era but also the democratic postmodern Spain of today

Lohmann, 1914 The destruction of the tropical forests continues rapidly We all know that this has global ecological and economic consequences The problem is of such magnitude that it can only be compared to warfare The destruction of tropical forests is both detrimental to the global ecology as well as posing a serious threat to the people living in these areas Furthermore the overutilization of such a valuable resource poses a serious threat to the next generations Besides the problem generated for the people in these regions and for the earth in general there is a moral obligation to preserve the vast biological diversity in the tropical forests We have a commitment to all species on earth as well as man and therefore need to preserve as many as possible if not all This book discusses the problem from different angles from forestry ecology and nature conservation The two main problem areas are first the wise utilization of that portion of the forest which will be used especially the introduction of planned forestry in such areas and second the development of a good plan for nature conservation in the tropics      Historia de América desde sus tiempos más remotos hasta nuestros días Juan Ortega Rubio, 1917      *Food and Drug Law Journal*, 1914      *Enciclopedia universal ilustrada europeo-americana*, 1929
